Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	Name of Each Exchange on Which Registered
Common Stock, \$0.01 par value per share	American Stock Exchange
Depository Shares Each Representing 1/1,000 of a Share of 9.500% Cumulative Preferred Stock, Series D, \$0.01 par value per share	American Stock Exchange
Depository Shares Each Representing 1/1,000 of a Share of 8.750% Cumulative Preferred Stock, Series F, \$0.01 par value per share	American Stock Exchange
Depository Shares Each Representing 1/1,000 of a Share of 7.000% Cumulative Preferred Stock, Series H, \$0.01 par value per share	American Stock Exchange
Depository Shares Each Representing 1/1,000 of a Share of 6.875% Cumulative Preferred Stock, Series I, \$0.01 par value per share	American Stock Exchange
Depository Shares Each Representing 1/1,000 of a Share of 7.950% Cumulative Preferred Stock, Series K, \$0.01 par value per share	American Stock Exchange
Depository Shares Each Representing 1/1,000 of a Share of 7.600% Cumulative Preferred Stock, Series L, \$0.01 par value per share	American Stock Exchange
Depository Shares Each Representing 1/1,000 of a Share of 7.200% Cumulative Preferred Stock, Series M, \$0.01 par value per share	American Stock Exchange

Securities registered pursuant to Section 12(g) of the Act:

None  
(Title of class)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes  No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Exchange Act. Yes  No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of the registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. Large Accelerated Filer  Accelerated Filer  Non-accelerated Filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

As of June 30, 2005, the aggregate market value of the registrant's common stock held by non-affiliates of the registrant was \$732,449,989 based on the closing price as reported on the American Stock Exchange.

Number of shares of the registrant's common stock, par value \$0.01 per share, outstanding as of February 28, 2006 (the latest practicable date): 21,466,067.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the definitive proxy statement to be filed in connection with the Annual Meeting of Shareholders to be held in 2006 are incorporated by reference into Part III of this Annual Report on Form 10-K.

## PART I.

### ITEM 1. BUSINESS

#### The Company

PS Business Parks, Inc. (“PSB”) is a fully-integrated, self-advised and self-managed real estate investment trust (“REIT”) that acquires, develops, owns and operates commercial properties, primarily multi-tenant flex, office and industrial space. As of December 31, 2005, PSB owned approximately 75% of the common partnership units of PS Business Parks, L.P. (the “Operating Partnership” or “OP”). The remaining common partnership units were owned by Public Storage, Inc. (“PSI” or “Public Storage”). PSB, as the sole general partner of the Operating Partnership, has full, exclusive and complete responsibility and discretion in managing and controlling the Operating Partnership. Unless otherwise indicated or unless the context requires otherwise, all references to “the Company,” “we,” “us,” “our,” and similar references mean PS Business Parks, Inc. and its subsidiaries, including the Operating Partnership.

As of December 31, 2005, the Company owned and operated approximately 17.6 million net rentable square feet of commercial space located in eight states: Arizona, California, Florida, Maryland, Oregon, Texas, Virginia, and Washington. The Company also manages approximately 1.2 million net rentable square feet on behalf of PSI and its affiliated entities.

*History of the Company:* The Company was formed in 1990 as a California corporation under the name Public Storage Properties XI, Inc. In a March 17, 1998 merger with American Office Park Properties, Inc. (“AOPP”) (the “Merger”), the Company acquired the commercial property business previously operated by AOPP and was renamed “PS Business Parks, Inc.” Prior to the merger in January 1997, AOPP was reorganized to succeed to the commercial property business of PSI, becoming a fully integrated, self advised and self managed REIT.

From 1998 through 2001, the Company added 9.7 million square feet in Virginia, Maryland, Texas, Oregon, California, and Arizona, acquiring 9.2 million square feet of commercial space from unaffiliated third parties and developing an additional 500,000 square feet.

During 2002, the economy and real estate fundamentals softened. This resulted in an environment in which the Company was unable to identify acquisitions at prices that met its investment criteria. The Company disposed of four properties totaling 386,000 square feet that no longer met its investment criteria.

In the year ended December 31, 2003, the Company acquired 4.1 million square feet of commercial space from unaffiliated third parties, including a 3.4 million square foot property located in Miami, Florida, which represented a new market for the Company. The Miami property represented approximately 18% of the Company’s aggregate net rentable square footage at December 31, 2003. The cost of these acquisitions was approximately \$282.4 million. The Company also disposed of four properties totaling 226,000 square feet as well as a one acre plot of land that no longer met its investment criteria.

During 2004 and 2005, increased competition for properties in the Company’s target markets resulted in a challenging acquisition environment with assets frequently trading at yields below levels that management believed provided growth opportunities commensurate with the risks associated with acquiring assets. As a result, in 2004 the Company made only one acquisition, a 165,000 square foot asset in Fairfax, Virginia for \$24.1 million. During 2004, the Company sold two significant assets, comprising approximately 400,000 square feet in Maryland resulting in a gain of \$15.2 million. Additionally in 2004, the Company sold approximately 91,000 square feet in Texas, Oregon and Miami. In 2005, the Company acquired one asset, a 233,000 square foot multi-tenant flex space in San Diego, California. The asset, which was 94.6% leased at the time of acquisition, was purchased for \$35.1 million. In connection with the acquisition, the Company assumed a \$15.0 million mortgage which bears interest at a fixed rate of 5.73%. During 2005, the Company sold Woodside Corporate Park, a 574,000 square foot flex and office park in Beaverton, Oregon for approximately \$64.5 million resulting in a gain of \$12.5 million. The park was 76.8% leased at the time of the sale. Additionally in 2005, the Company sold approximately 100,000 square feet and some parcels of land in Miami and Oregon.

The Company has elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended (the "Code"), commencing with its taxable year ended December 31, 1990. To the extent that the Company continues to qualify as a REIT, it will not be taxed, with certain limited exceptions, on the net income that is currently distributed to its shareholders.

The Company's principal executive offices are located at 701 Western Avenue, Glendale, California 91201-2397. The Company's telephone number is (818) 244-8080. The Company maintains a website with the address [www.psbusinessparks.com](http://www.psbusinessparks.com). The information contained on the Company's website is not a part of, or incorporated by reference into, this Annual Report on Form 10-K. The Company makes available free of charge through its website its Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K, and amendments to these reports, as soon as reasonably practicable after the Company electronically files such material with, or furnishes such material to, the Securities and Exchange Commission.

*Business of the Company:* The Company is in the commercial property business, with properties consisting of multi-tenant flex, industrial, and office space. The Company owns approximately 10.4 million square feet of flex space. The Company defines "flex" space as buildings that are configured with a combination of warehouse and office space and can be designed to fit a wide variety of uses. The warehouse component of the flex space has a number of uses including light manufacturing and assembly, storage and warehousing, showroom, laboratory, distribution and research and development activities. The office component of flex space is complementary to the warehouse component by enabling businesses to accommodate management and production staff in the same facility. The Company owns approximately 3.9 million square feet of industrial space that have characteristics similar to the warehouse component of the flex space. In addition, the Company owns approximately 3.2 million square feet of low-rise office space, generally either in business parks that combine office and flex space or in submarkets where the economics of the market demand an office build-out.

The Company's commercial properties typically consist of low-rise buildings, ranging from one to over fifty buildings per property, located on up to 216 acres and comprising from approximately 20,000 to 3,300,000 aggregate square feet of rentable space. Facilities are managed through either on-site management or area offices central to the facilities. Parking is generally open but in some instances is covered. The ratio of parking spaces to rentable square feet ranges from two to six per thousand square feet depending upon the use of the property and its location. Office space generally requires a greater parking ratio than most industrial uses. The Company may acquire properties that do not have these characteristics.

The tenant base for the Company's facilities is diverse. The portfolio can be bifurcated into those facilities that service small to medium-sized businesses and those that service larger businesses. Approximately 39.9% of in-place rents from the portfolio are from facilities that serve small to medium-sized businesses. A property in this facility type is typically divided into units ranging in size from 500 to 4,999 square feet and leases generally range from one to three years. The remaining 60.1% of the in-place rents are derived from facilities that serve larger businesses, with units greater than or equal to 5,000 square feet. The Company also has several tenants that lease space in multiple buildings and locations. The U.S. Government is the largest tenant with leases encompassing 473,000 square feet, in 13 separate locations, or approximately 5.7% of the Company's annual revenue.

The Company intends to continue acquiring commercial properties located in its target markets within the United States. The Company's policy of acquiring commercial properties may be changed by its Board of Directors without shareholder approval. However, the Board of Directors has no intention of changing this policy at this time. Although the Company currently owns properties in eight states, it may expand its operations to other states or reduce the number of states in which it operates. Properties are acquired for both income and potential capital appreciation; there is no limitation on the amount that can be invested in any specific property. Although there are no restrictions on our ability to expand our operations into foreign markets, we currently operate solely within the United States and have no foreign operations.

The Company has acquired land for the development of commercial properties. The Company owned approximately 6.4 acres of land in Northern Virginia, 14.9 acres in Portland, Oregon, 1.0 acre in Rockville, Maryland and 10.0 acres in Dallas, Texas as of December 31, 2005.

## **Operating Partnership**

The properties in which the Company has an equity interest will generally be owned by the Operating Partnership. The Company has the ability to acquire interests in additional properties in transactions that could defer the contributors' tax consequences by causing the Operating Partnership to issue equity interests in return for interests in properties.

As the general partner of the Operating Partnership, the Company has the exclusive responsibility under the Operating Partnership Agreement to manage and conduct the business of the Operating Partnership. The Board of Directors directs the affairs of the Operating Partnership by managing the Company's affairs. The Operating Partnership will be responsible for, and pay when due, its share of all administrative and operating expenses of the properties it owns.

The Company's interest in the Operating Partnership entitles it to share in cash distributions from, and the profits and losses of, the Operating Partnership in proportion to the Company's economic interest in the Operating Partnership (apart from tax allocations of profits and losses to take into account pre-contribution property appreciation or depreciation).

## **Summary of the Operating Partnership Agreement**

The following summary of the Operating Partnership Agreement is qualified in its entirety by reference to the Operating Partnership Agreement as amended, which is incorporated by reference as an exhibit to this report.

*Issuance of Additional Partnership Interests:* As the general partner of the Operating Partnership, the Company is authorized to cause the Operating Partnership from time to time to issue to partners of the Operating Partnership or to other persons additional partnership units in one or more classes, and in one or more series of any of such classes, with such designations, preferences and relative, participating, optional, or other special rights, powers and duties (which may be senior to the existing partnership units), as will be determined by the Company, in its sole and absolute discretion, without the approval of any limited partners, except to the extent specifically provided in the agreement. No such additional partnership units, however, will be issued to the Company unless (i) the agreement to issue the additional partnership interests arises in connection with the issuance of shares of the Company, which shares have designations, preferences and other rights, such that the economic interests are substantially similar to the designations, preferences and other rights of the additional partnership units that would be issued to the Company and (ii) the Company agrees to make a capital contribution to the Operating Partnership in an amount equal to the proceeds raised in connection with the issuance of such shares of the Company.

*Capital Contributions:* No partner is required to make additional capital contributions to the Operating Partnership, except that the Company as the general partner is required to contribute the proceeds of the sale of equity interests in the Company to the Operating Partnership in return for additional partnership units. A limited partner may be required to pay to the Operating Partnership any taxes paid by the Operating Partnership on behalf of that limited partner. No partner is required to pay to the Operating Partnership any deficit or negative balance which may exist in its capital account.

*Distributions:* The Company, as general partner, is required to distribute at least quarterly the "available cash" (as defined in the Operating Partnership Agreement) generated by the Operating Partnership for such quarter. Distributions are to be made (i) first, with respect to any class of partnership interests having a preference over other classes of partnership interests; and (ii) second, in accordance with the partners' respective percentage interests on the "partnership record date" (as defined in the Operating Partnership Agreement). Commencing in 1998, the Operating Partnership's policy has been to make distributions per unit (other than preferred units) that are equal to the per share distributions made by the Company with respect to its Common Stock.

*Preferred Units:* As of December 31, 2005, the Operating Partnership had an aggregate of 5.4 million preferred units owned by third parties with distribution rates ranging from 7.125% to 9.250% (per annum) with an aggregate stated value of \$135.8 million. The Operating Partnership has the right to redeem each series of preferred units on or after the fifth anniversary of the issuance date of the series at the original capital contribution plus the cumulative priority return, as defined, to the redemption date to the extent not previously distributed.

Each series of preferred units is exchangeable for Cumulative Redeemable Preferred Stock of the respective series of PS Business Parks, Inc. on or after the tenth anniversary of the date of issuance at the option of the Operating Partnership or a majority of the holders of the applicable series of preferred units.

As of December 31, 2005, in connection with the Company's issuance of publicly traded Cumulative Preferred Stock, the Company owned 23.7 million preferred units of various series with a stated value of \$593.4 million with terms substantially identical to the terms of the publicly traded depositary shares each representing 1/1,000 of a share of 6.875% to 9.500% Cumulative Preferred Stock of the Company. The holders of all series of Preferred Stock may combine to elect two additional directors if the Company fails to make dividend payments for six quarterly dividend payment periods, whether or not consecutive.

*Redemption of Partnership Interests:* Subject to certain limitations described below, each limited partner (other than the Company and holders of preferred units) has the right to require the redemption of such limited partner's units. This right may be exercised on at least 10 days notice at any time or from time to time, beginning on the date that is one year after the date on which such limited partner is admitted to the Operating Partnership (unless otherwise contractually agreed by the general partner).

Unless the Company, as general partner, elects to assume and perform the Operating Partnership's obligation with respect to a redemption right, as described below, a limited partner that exercises its redemption right will receive cash from the Operating Partnership in an amount equal to the "redemption amount" (as defined in the Operating Partnership Agreement generally to reflect the average trading price of the Common Stock of the Company over a specified 10 day trading period) for the units redeemed. In lieu of the Operating Partnership redeeming the units for cash, the Company, as the general partner, has the right to elect to acquire the units directly from a limited partner exercising its redemption right, in exchange for cash in the amount specified above as the "redemption amount" or by issuance of the "shares amount" (as defined in the Operating Partnership Agreement, generally to mean the issuance of one share of the Company Common Stock for each unit of limited partnership interest redeemed).

A limited partner cannot exercise its redemption right if delivery of shares of Common Stock would be prohibited under the articles of incorporation of the Company or if in the opinion of counsel to the general partner there is a significant risk that delivery of shares of Common Stock would cause the general partner to no longer qualify as a REIT, would cause a violation of the applicable securities or certain antitrust laws, or would result in the Operating Partnership no longer being treated as a partnership for federal income tax purposes.

*Limited Partner Transfer Restrictions:* Limited partners generally may not transfer partnership interests (other than to their estates, immediate family or certain affiliates) without the prior written consent of the Company as general partner, which consent may be given or withheld in its sole and absolute discretion. The Company, as general partner has a right of first refusal to purchase partnership interests proposed to be sold by the limited partners. Transfers must comply with applicable securities laws and regulations. Transfers of partnership interests generally are not permitted if the transfer would be made through certain trading markets or adversely affect the Company's ability to qualify as a REIT or could subject the Company to any additional taxes under Section 857 or Section 4981 of the Code.

*Management:* The Operating Partnership is organized as a California limited partnership. The Company, as the sole general partner of the Operating Partnership, has full, exclusive and complete responsibility and discretion in managing and controlling the Operating Partnership, except as provided in the Operating Partnership Agreement and by applicable law. The limited partners of the Operating Partnership have no authority to transact business for, or participate in the management activities or decisions of, the Operating Partnership except as provided in the Operating Partnership Agreement and as permitted by applicable law. The Operating Partnership Agreement provides that the general partner may not be removed by the limited partners. In exercising its authority under the agreement, the general partner may take into account (but is not required to do so) the tax consequences to any partner of actions or inaction and is under no obligation to consider the separate interests of the limited partners.

However, the consent of the limited partners holding a majority of the interests of the limited partners (including limited partnership interests held by the Company) generally will be required to amend the Operating

Partnership Agreement. Further, the Operating Partnership Agreement cannot be amended without the consent of each partner adversely affected if, among other things, the amendment would alter the partner's rights to distributions from the Operating Partnership (except as specifically permitted in the Operating Partnership Agreement), alter the redemption right, or impose on the limited partners an obligation to make additional capital contributions.

The consent of all limited partners will be required to (i) take any action that would make it impossible to carry on the ordinary business of the Operating Partnership, except as otherwise provided in the Operating Partnership Agreement; or (ii) possess Operating Partnership property, or assign any rights in specific Operating Partnership property, for other than an Operating Partnership purpose, except as otherwise provided in the Operating Partnership Agreement. In addition, without the consent of any adversely affected limited partner, the general partner may not perform any act that would subject a limited partner to liability as a general partner in any jurisdiction or any other liability except as provided in the Operating Partnership Agreement or under California law.

*Extraordinary Transactions:* The Operating Partnership Agreement provides that the Company may not engage in any business combination, defined to mean any merger, consolidation or other combination with or into another person or sale of all or substantially all of its assets, any reclassification, any recapitalization (other than certain stock splits or stock dividends) or change of outstanding shares of common stock, unless (i) the limited partners of the Operating Partnership will receive, or have the opportunity to receive, the same proportionate consideration per unit in the transaction as shareholders of the Company (without regard to tax considerations); or (ii) limited partners of the Operating Partnership (other than the general partner) holding at least 60% of the interests in the Operating Partnership held by limited partners (other than the general partner) vote to approve the business combination. In addition, the Company, as general partner of the Operating Partnership, has agreed in the Operating Partnership Agreement with the limited partners of the Operating Partnership that it will not consummate a business combination in which the Company conducted a vote of shareholders unless the matter is also submitted to a vote of the partners.

The foregoing provision of the Operating Partnership Agreement would under no circumstances enable or require the Company to engage in a business combination which required the approval of shareholders if the shareholders of the Company did not in fact give the requisite approval. Rather, if the shareholders did approve a business combination, the Company would not consummate the transaction unless the Company as general partner first conducts a vote of partners of the Operating Partnership on the matter. For purposes of the Operating Partnership vote, the Company shall be deemed to vote its partnership interest in the same proportion as the shareholders of the Company voted on the matter (disregarding shareholders who do not vote). The Operating Partnership vote will be deemed approved if the votes recorded are such that if the Operating Partnership vote had been a vote of shareholders, the business combination would have been approved by the shareholders. As a result of these provisions of the Operating Partnership, a third party may be inhibited from making an acquisition proposal for the Company that it would otherwise make, or the Company, despite having the requisite authority under its articles of incorporation, may not be authorized to engage in a proposed business combination.

*Tax Protection Provision Affecting Certain Properties:* The Operating Partnership Agreement provides that, until 2007, the Operating Partnership may not sell 11 designated properties in a transaction that would produce taxable gain for the contributing partner without the prior written consent of PSI. The Operating Partnership is not required to obtain PSI's consent if PSI and its affiliated partnerships do not continue to hold at the time of the sale at least 30% of their original interest in the Operating Partnership. Since PSI's consent is required only in connection with a taxable sale of a designated property, the Operating Partnership will not be required to obtain PSI's consent in connection with a "like-kind" exchange or other nontaxable transaction involving these properties. Since formation of the Operating Partnership, the Company has asked for and received PSI's consent to sell one property. The 10 remaining properties represent 6.1% of the square footage in the Company's portfolio.

*Indemnification:* The Operating Partnership Agreement generally provides that the Company and its officers and directors and the limited partners of the Operating Partnership will be indemnified and held harmless by the Operating Partnership for matters that relate to the operations of the Operating Partnership unless it is established that (i) the act or omission of the indemnified person was material to the matter giving rise to the

proceeding and either was committed in bad faith or was the result of active and deliberate dishonesty; (ii) the indemnified person actually received an improper personal benefit in money, property or services; or (iii) in the case of any criminal proceeding, the indemnified person had reasonable cause to believe that the act or omission was unlawful. The termination of any proceeding by judgment, order or settlement does not create a presumption that the indemnified person did not meet the requisite standards of conduct set forth above. The termination of any proceeding by conviction or upon a plea of nolo contendere or its equivalent, or an entry of an order of probation prior to judgment, creates a rebuttable presumption that the indemnified person did not meet the requisite standard of conduct set forth above. Any indemnification so made shall be made only out of the assets of the Operating Partnership or through insurance obtained by the Operating Partnership. The general partner shall not be liable for monetary damages to the partnership, any partners or any assignees for losses sustained, liabilities incurred or benefits not derived as a result of errors in judgment or of any act or omissions if the general partner acted in good faith.

*Duties and Conflicts:* The Operating Agreement allows the Company to operate the Operating Partnership in a manner that will enable the Company to satisfy the requirements for being classified as a REIT. The Company intends to conduct all of its business activities, including all activities pertaining to the acquisition, management and operation of properties, through the Operating Partnership. However, the Company may own, directly or through subsidiaries, interests in Operating Partnership properties that do not exceed 1% of the economic interest of any property, and if appropriate for regulatory, tax or other purposes, the Company also may own, directly or through subsidiaries, interests in assets that the Operating Partnership otherwise could acquire, if the Company grants to the Operating Partnership the option to acquire the assets within a period not to exceed three years in exchange for the number of partnership units that would be issued if the Operating Partnership had acquired the assets at the time of acquisition by the Company.

*Term:* The Operating Partnership will continue in full force and effect until December 31, 2096 or until sooner dissolved upon the withdrawal of the general partner (unless the limited partners elect to continue the Operating Partnership), or by the election of the general partner (with the consent of the holders of a majority of the partnerships interests if such vote is held before January 1, 2056), in connection with a merger or the sale or other disposition of all or substantially all of the assets of the Operating Partnership, or by judicial decree.

*Other Provisions:* The Operating Partnership Agreement contains other provisions affecting its operations and management, limited partner access to certain business records, responsibility for expenses and reimbursements, tax allocations, distribution of certain reports, winding-up and liquidation, the granting by the limited partners of powers of attorney to the general partner, the rights of holders of particular series of preferred units, and other matters.

### **Cost Allocation and Administrative Services**

Pursuant to a cost sharing and administrative services agreement, the Company shares costs with PSI and affiliated entities for certain administrative services. These services include employee relations, administration, management information systems, legal, corporate tax and office services. Under this agreement, costs are allocated to the Company in accordance with its proportionate share of these costs. These allocated costs totaled \$335,000, \$327,000, and \$335,000 for the years ended December 31, 2005, 2004 and 2003, respectively. In addition, in November 2002, the former Chief Executive Officer of the Company, Ronald L. Havner, Jr. was appointed Chief Executive Officer of PSI. Mr. Havner resigned as Chief Executive Officer of the Company in August 2003 and was succeeded by Joseph D. Russell, Jr. Mr. Havner remains Chairman of the Company.

### **Common Officers and Directors with PSI**

Ronald L. Havner, Jr., Chairman of the Company, is the Chief Executive Officer and President of PSI. Harvey Lenkin, retired president of PSI, is a Director of both the Company and PSI. The Company engages additional executive personnel who render services exclusively for the Company. However, it is expected that certain officers of PSI will continue to render services for the Company as requested.

## Property Management

The Company continues to manage commercial properties owned by PSI and its affiliates, which are generally adjacent to mini-warehouses, for a fee of 5% of the gross revenues of such properties in addition to reimbursement of direct costs. The property management contract with PSI is for a seven-year term with the agreement automatically extending for successive one-year terms (unless cancelled by either party). PSI can cancel the property management contract upon 60 days notice while the Operating Partnership can cancel it upon seven years notice. Management fee revenue derived from these management contracts with PSI and its affiliates totaled approximately \$579,000, \$562,000 and \$581,000 for the years ended December 31, 2005, 2004 and 2003, respectively.

## Management

Joseph D. Russell, Jr. (46) leads the Company's senior management team. Mr. Russell is President and Chief Executive Officer of the Company. The Company's executive management includes: John Petersen (42), Executive Vice President and Chief Operating Officer; Edward A. Stokx (40), Executive Vice President and Chief Financial Officer; Brett Franklin (41), Senior Vice President, Acquisitions and Dispositions; Maria R. Hawthorne (46), Senior Vice President (East Coast); Joseph E. Miller (42), Senior Vice President and CFO of Operations; Coby Holley (36), Vice President (Pacific Northwest Division), Robin E. Mather (43), Vice President (Southern California Division); William A. McFaul (40), Vice President (Maryland Division); and Viola Sanchez (43) Vice President (Southeast Division).

## REIT Structure

If certain detailed conditions imposed by the Code and the related Treasury Regulations are met, an entity, such as the Company, that invests principally in real estate and that otherwise would be taxed as a corporation may elect to be treated as a REIT. The most important consequence to the Company of being treated as a REIT for federal income tax purposes is that the Company can deduct dividend distributions (including distributions on preferred stock) to its shareholders, thus effectively eliminating the "double taxation" (at the corporate and shareholder levels) that typically results when a corporation earns income and distributes that income to shareholders in the form of dividends.

The Company believes that it has operated, and intends to continue to operate, in such a manner as to qualify as a REIT under the Code, but no assurance can be given that it will at all times so qualify. To the extent that the Company continues to qualify as a REIT, it will not be taxed, with certain limited exceptions, on the taxable income that is distributed to its shareholders.

## Operating Strategy

The Company believes its operating, acquisition and finance strategies combined with its diversified portfolio produces a lower risk, higher growth business model. The Company's primary objective is to grow shareholder value. Key elements of the Company's growth strategy include:

*Maximize Net Cash Flow of Existing Properties:* The Company seeks to maximize the net cash flow generated by its properties by (i) maximizing average occupancy rates, (ii) achieving higher levels of realized monthly rents per occupied square foot, and (iii) reducing its operating cost structure by improving operating efficiencies and economies of scale. The Company believes that its experienced property management personnel and comprehensive systems combined with increasing economies of scale will enhance the Company's ability to meet these goals. The Company seeks to increase occupancy rates and realized monthly rents per square foot by providing its field personnel with incentives to lease space to higher credit tenants and to maximize the return on investment in each lease transaction. The Company seeks to reduce its cost structure by controlling capital expenditures associated with re-leasing space by acquiring and owning properties with easily reconfigured space that appeal to a wide range of tenants.

*Focus on Targeted Markets:* The Company intends to continue investing in markets that have characteristics which enable them to be competitive economically. The Company believes that markets with some

combination of above average population growth, education levels and personal income will produce better overall economic returns. As of December 31, 2005, substantially all of the Company's square footage was located in these targeted core markets. The Company targets individual properties in those markets that are close to important services and universities and have easy access to major transportation arteries.

*Reduce Expenditures and Increase Occupancy Rates by Providing Flexible Properties and Attracting a Diversified Tenant Base:* By focusing on properties with easily reconfigured space, the Company believes it can offer facilities that appeal to a wide range of potential tenants, which aids in reducing the capital expenditures associated with re-leasing space. The Company believes this property flexibility also allows it to better serve existing tenants by accommodating their inevitable expansion and contraction needs. In addition, the Company believes that a diversified tenant base and property flexibility helps it maintain high occupancy rates during periods when market demand is weak, by enabling it to attract a greater number of potential users to its space.

*Provide Superior Property Management:* The Company seeks to provide a superior level of service to its tenants in order to achieve high occupancy and rental rates, as well as minimal customer turnover. The Company's property management offices are primarily located on-site or regionally located, providing tenants with convenient access to management and helping the Company maintain its properties and convey a sense of quality, order and security. The Company has significant experience in acquiring properties managed by others and thereafter improving tenant satisfaction, occupancy levels, renewal rates and rental income by implementing established tenant service programs.

## **Financing Strategy**

The Company's primary objective in its financing strategy is to maintain financial flexibility and a low risk capital structure using permanent capital to finance its growth. Key elements of this strategy are:

*Retain Operating Cash Flow:* The Company seeks to retain significant funds (after funding its distributions and capital improvements) for additional investments. During the year ended December 31, 2005, the Company distributed 33.0% of its funds from operations ("FFO") to common shareholders/unitholders. During the year ended December 31, 2004, the Company distributed 34.7% of its FFO to common shareholders/unitholders. The increase in retained cash was a result of lower transaction costs and a higher level of FFO. FFO is computed in accordance with the White Paper on FFO approved by the Board of Governors of the National Association of Real Estate Investment Trusts ("NAREIT"). The White Paper defines FFO as net income, computed in accordance with generally accepted accounting principles ("GAAP"), before depreciation, amortization, minority interest in income, and extraordinary items. FFO is a non-GAAP financial measure and should be analyzed in conjunction with net income. However, FFO should not be viewed as a substitute for net income as a measure of operating performance as it does not reflect depreciation and amortization costs or the level of capital expenditure and leasing costs necessary to maintain the operating performance of the Company's properties, which are significant economic costs and could materially impact the Company's results from operations. Other REITs may use different methods for calculating FFO and, accordingly, the Company's FFO may not be comparable to other real estate companies' funds from operations. See Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations — Liquidity and Capital Resources — Non-GAAP Supplemental Disclosure Measure: Funds from Operations," for a reconciliation of FFO and net income allocable to common shareholders and for information on why the Company presents FFO.

*Perpetual Preferred Stock/Units:* The primary source of leverage in the Company's capital structure is perpetual preferred stock or equivalent preferred units in the operating partnership. This method of financing eliminates interest rate and refinancing risks because the dividend rate is fixed and the stated value or capital contribution is not required to be repaid. In addition, the consequences of defaulting on required preferred distributions is less severe than with debt. The preferred shareholders may elect additional two directors if six quarterly distributions go unpaid, whether or not consecutive.

*Debt Financing:* The Company has used debt financing to a limited degree. The primary source of debt that the Company relies upon to provide short term capital is its \$100.0 million unsecured line of credit with Wells Fargo. In the past, the Company also had an unsecured term loan in the amount of \$50.0 million. This term loan was repaid in 2004. From time to time, the Company has also borrowed funds on a short term basis from PSI.

*Access to Acquisition Capital:* The Company seeks to maintain a ratio of FFO to combined fixed charges and preferred distributions paid of 3.0 to 1.0. Fixed charges include interest expense and capitalized interest. Preferred distributions include amounts paid to preferred shareholders and preferred Operating Partnership unitholders. As of the year ended December 31, 2005, the FFO to combined fixed charges and preferred distributions paid ratio was 2.9 to 1.0, excluding the effects of Emerging Issues Task Force (“EITF”) Topic D-42. The fixed charge ratio was below the Company’s objective of 3.0x as the Company issued preferred equity in 2005 in anticipation of redeeming higher rate preferred equity in 2006. The Company believes that its financial position will enable it to access capital to finance its future growth. Subject to market conditions, the Company may add leverage to its capital structure. Throughout this Form 10-K, we use the term “preferred equity” to mean both the preferred stock issued by the Company and the preferred partnership units issued by the Operating Partnership and the term “preferred distributions” to mean dividends and distributions on the preferred stock and preferred partnership units.

## **Competition**

Competition in the market areas in which many of the Company’s properties are located is significant and has reduced the occupancy levels and rental rates of, and increased the operating expenses of, certain of these properties. Competition may be accelerated by any increase in availability of funds for investment in real estate. Barriers to entry are relatively low for those with the necessary capital and the Company competes for property acquisitions and tenants with entities that have greater financial resources than the Company. Recent increases in sublease space and unleased developments are expected to further intensify competition among operators in certain market areas in which the Company operates.

The Company’s properties compete for tenants with similar properties located in its markets primarily on the basis of location, rent charged, services provided and the design and condition of improvements. The Company believes it possesses several distinguishing characteristics that enable it to compete effectively in the flex, office and industrial space markets. The Company believes its personnel are among the most experienced in these real estate markets. The Company’s facilities are part of a comprehensive system encompassing standardized procedures and integrated reporting and information networks. The Company believes that the significant operating and financial experience of its executive officers and directors combined with the Company’s capital structure, national investment scope, geographic diversity and economies of scale should enable the Company to compete effectively.

## **Investments in Real Estate Facilities**

As of December 31, 2005, the Company owned and operated approximately 17.6 million net rentable square feet compared to 18.0 million net rentable square feet at December 31, 2004. The net decrease in net rentable square feet was due to the disposition of facilities that were identified by management as not meeting the Company’s ongoing investment strategy, partially offset by the acquisition of the property in San Diego, California.

## **Summary of Business Model**

The Company has a diversified portfolio. It is diversified geographically in eight states and has a diversified customer mix by size and industry concentration. The Company believes that this diversification combined with a conservative financing strategy, focus on markets with strong demographics for growth and operating strategy gives the Company a business model that mitigates risk and provides strong long-term growth opportunities.

## **Restrictions on Transactions with Affiliates**

The Company’s Bylaws provide that the Company may engage in transactions with affiliates provided that a purchase or sale transaction with an affiliate is (i) approved by a majority of the Company’s independent directors and (ii) fair to the Company based on an independent appraisal or fairness opinion.

## **Borrowings**

As of December 31, 2005, the Company had outstanding mortgage notes payable of approximately \$25.9 million. See Notes 5 and 6 to the consolidated financial statements for a summary of the Company's outstanding borrowings as of December 31, 2005.

In August of 2005, the Company modified the term of its line of credit (the "Credit Facility") with Wells Fargo Bank. The Credit Facility has a borrowing limit of \$100.0 million and matures on August 1, 2008. Interest on outstanding borrowings is payable monthly. At the option of the Company, the rate of interest charged is equal to (i) the prime rate or (ii) a rate ranging from the London Interbank Offered Rate ("LIBOR") plus 0.50% to LIBOR plus 1.20% depending on the Company's credit ratings and coverage ratios, as defined (currently LIBOR plus 0.65%). In addition, the Company is required to pay an annual commitment fee ranging from 0.15% to 0.30% of the borrowing limit (currently 0.20%). In connection with the modification of the Credit Facility, the Company paid a fee of \$450,000, which will be amortized over the life of the Credit Facility. The Company had no balance outstanding on its Credit Facility at December 31, 2005 and 2004.

The Credit Facility requires the Company to meet certain covenants including (i) maintain a balance sheet leverage ratio (as defined) of less than 0.45 to 1.00, (ii) maintain interest and fixed charge coverage ratios (as defined) of not less than 2.25 to 1.00 and 1.75 to 1.00, respectively, (iii) maintain a minimum tangible net worth (as defined) and (iv) limit distributions to 95% of funds from operations (as defined) for any four consecutive quarters. In addition, the Company is limited in its ability to incur additional borrowings (the Company is required to maintain unencumbered assets with an aggregate book value equal to or greater than two times the Company's unsecured recourse debt; the Company did not have any unsecured recourse debt at December 31, 2005) or sell assets. The Company was in compliance with the covenants of the Credit Facility at December 31, 2005.

In February 2004, the Company repaid, in full, the \$50.0 million outstanding on a \$50.0 million unsecured term note agreement with Fleet National Bank. The Company incurred interest at LIBOR plus 1.45% per annum. During July 2002, the Company entered into an interest rate swap transaction which resulted in a fixed LIBOR rate of 3.01% for the term loan resulting in an all in rate of 4.46% per annum on the term loan. The unsecured note required the Company to meet covenants that were substantially the same as the covenants in the Credit Facility.

The Company has broad powers to borrow in furtherance of the Company's objectives. The Company has incurred in the past, and may incur in the future, both short-term and long-term indebtedness to increase its funds available for investment in real estate, capital expenditures and distributions.

## **Employees**

As of December 31, 2005, the Company employed 137 individuals, primarily personnel engaged in property operations. The Company believes that its relationship with its employees is good and none of the employees are represented by a labor union.

## **Insurance**

The Company believes that its properties are adequately insured. Facilities operated by the Company have historically been covered by comprehensive insurance, including fire, earthquake, liability and extended coverage from nationally recognized carriers.

## **Environmental Matters**

Compliance with laws and regulations relating to the protection of the environment, including those regarding the discharge of material into the environment, has not had any material effects upon the capital expenditures, earnings or competitive position of the Company.

Substantially all of the Company's properties have been subjected to Phase I environmental reviews. Such reviews have not revealed, nor is management aware of, any probable or reasonably possible environmental costs that management believes would have a material adverse effect on the Company's business, assets or results of operations, nor is the Company aware of any potentially material environmental liability.

## **ITEM 1A. RISK FACTORS**

In addition to the other information in this Form 10-K, the following factors should be considered in evaluating our company and our business.

### **Public Storage has significant influence over us.**

At December 31, 2005, Public Storage and its affiliates owned 25.1% of the outstanding shares of our common stock and 25.3% of the outstanding common units of our operating partnership (100% of the common units not owned by us). Assuming conversion of its partnership units PSI would own 44.1% of the outstanding shares of our common stock. Also, Ronald L. Havner, Jr., our Chairman of the Board, is also Chief Executive Officer, President and a Director of Public Storage and Harvey Lenkin, one of our Directors, is also a Director of Public Storage. Consequently, Public Storage has the ability to significantly influence all matters submitted to a vote of our shareholders, including electing directors, changing our articles of incorporation, dissolving and approving other extraordinary transactions such as mergers, and all matters requiring the consent of the limited partners of the operating partnership. In addition, Public Storage's ownership may make it more difficult for another party to take over our company without Public Storage's approval.

### **Provisions in our organizational documents may prevent changes in control.**

*Our articles generally prohibit owning more than 7% of our shares:* Our articles of incorporation restrict the number of shares that may be owned by any other person, and the partnership agreement of our operating partnership contains an anti-takeover provision. No shareholder (other than Public Storage and certain other specified shareholders) may own more than 7% of the outstanding shares of our common stock, unless our board of directors waives this limitation. We imposed this limitation to avoid, to the extent possible, a concentration of ownership that might jeopardize our ability to qualify as a REIT. This limitation, however, also makes a change of control much more difficult (if not impossible) even if it may be favorable to our public shareholders. These provisions will prevent future takeover attempts not approved by Public Storage even if a majority of our public shareholders consider it to be in their best interests because they would receive a premium for their shares over the shares' then market value or for other reasons.

*Our board can set the terms of certain securities without shareholder approval:* Our board of directors is authorized, without shareholder approval, to issue up to 50,000,000 shares of preferred stock and up to 100,000,000 shares of equity stock, in each case in one or more series. Our board has the right to set the terms of each of these series of stock. Consequently, the board could set the terms of a series of stock that could make it difficult (if not impossible) for another party to take over our company even if it might be favorable to our public shareholders. Our articles of incorporation also contain other provisions that could have the same effect. We can also cause our operating partnership to issue additional interests for cash or in exchange for property.

*The partnership agreement of our operating partnership restricts mergers:* The partnership agreement of our operating partnership generally provides that we may not merge or engage in a similar transaction unless the limited partners of our operating partnership are entitled to receive the same proportionate payments as our shareholders. In addition, we have agreed not to merge unless the merger would have been approved had the limited partners been able to vote together with our shareholders, which has the effect of increasing Public Storage's influence over us due to Public Storage's ownership of operating partnership units. These provisions may make it more difficult for us to merge with another entity.

### **Our operating partnership poses additional risks to us.**

Limited partners of our operating partnership, including Public Storage, have the right to vote on certain changes to the partnership agreement. They may vote in a way that is against the interests of our shareholders. Also, as general partner of our operating partnership, we are required to protect the interests of the limited partners of the operating partnership. The interests of the limited partners and of our shareholders may differ.

**We cannot sell certain properties without Public Storage’s approval.**

Prior to 2007, we are prohibited from selling 10 specified properties without Public Storage’s approval. Since Public Storage would be taxed on a sale of these properties, the interests of Public Storage and our other shareholders may differ as to the best time to sell such properties.

**We would incur adverse tax consequences if we fail to qualify as a REIT.**

*Our cash flow would be reduced if we fail to qualify as a REIT:* While we believe that we have qualified since 1990 to be taxed as a REIT, and will continue to be so qualified, we cannot be certain. To continue to qualify as a REIT, we need to satisfy certain requirements under the federal income tax laws relating to our income, assets, distributions to shareholders and shareholder base. In this regard, the share ownership limits in our articles of incorporation do not necessarily ensure that our shareholder base is sufficiently diverse for us to qualify as a REIT. For any year we fail to qualify as a REIT, we would be taxed at regular corporate tax rates on our taxable income unless certain relief provisions apply. Taxes would reduce our cash available for distributions to shareholders or for reinvestment, which could adversely affect us and our shareholders. Also we would not be allowed to elect REIT status for five years after we fail to qualify unless certain relief provisions apply.

*We may need to borrow funds to meet our REIT distribution requirements:* To qualify as a REIT, we must generally distribute to our shareholders 90% of our taxable income. Our income consists primarily of our share of our Operating Partnership’s income. We intend to make sufficient distributions to qualify as a REIT and otherwise avoid corporate tax. However, differences in timing between income and expenses and the need to make nondeductible expenditures such as capital improvements and principal payments on debt could force us to borrow funds to make necessary shareholder distributions.

**Since we buy and operate real estate, we are subject to general real estate investment and operating risks.**

*Summary of real estate risks:* We own and operate commercial properties and are subject to the risks of owning real estate generally and commercial properties in particular. These risks include:

- the national, state and local economic climate and real estate conditions, such as oversupply of or reduced demand for space and changes in market rental rates;
- how prospective tenants perceive the attractiveness, convenience and safety of our properties;
- our ability to provide adequate management, maintenance and insurance;
- our ability to collect rent from tenants on a timely basis;
- the expense of periodically renovating, repairing and reletting spaces;
- environmental issues;
- compliance with the Americans with Disabilities Act and other federal, state, and local laws and regulations;
- increasing operating costs, including real estate taxes, insurance and utilities, if these increased costs cannot be passed through to tenants;
- changes in tax, real estate and zoning laws;
- increase in new commercial properties in our market;
- tenant defaults and bankruptcies;
- tenant’s right to sublease space; and
- concentration of properties leased to non-rated private companies.

Certain significant costs, such as mortgage payments, real estate taxes, insurance and maintenance, generally are not reduced even when a property’s rental income is reduced. In addition, environmental and tax laws, interest

rate levels, the availability of financing and other factors may affect real estate values and property income. Furthermore, the supply of commercial space fluctuates with market conditions.

If our properties do not generate sufficient income to meet operating expenses, including any debt service, tenant improvements, leasing commissions and other capital expenditures, we may have to borrow additional amounts to cover fixed costs, and we may have to reduce our distributions to shareholders.

*New acquisitions and developments may fail to perform as expected:* We continue to seek to acquire and develop flex, industrial and office properties where they meet our criteria and we believe that they will enhance our future financial performance and the value of our portfolio. Our belief, however, is based on and is subject to risks, uncertainties and other factors, many of which are forward-looking and are uncertain in nature or are beyond our control. In addition, some of these properties may have unknown characteristics or deficiencies or may not complement our portfolio of existing properties. Real property development is subject to a number of risks, including construction delays, complications in obtaining necessary zoning, occupancy and other governmental permits, cost overruns, financing risks, and the possible inability to meet expected occupancy and rent levels. If any of these problems occur, development costs for a project may increase, and there may be costs incurred for projects that are not completed. As a result of the foregoing, some properties may be worth less or may generate less revenue than, or simply not perform as well as, we believed at the time of acquisition or development, negatively affecting our operating results. In addition, we may be unable to successfully integrate and effectively manage the properties we do acquire and develop, which could adversely affect our results of operations.

*We may encounter significant delays and expense in reletting vacant space, or we may not be able to relet space at existing rates, in each case resulting in losses of income:* When leases expire, we will incur expenses in retrofitting space and we may not be able to release the space on the same terms. Certain leases provide tenants with the right to terminate early. Our properties as of December 31, 2005 generally have lower vacancy rates than the average for the markets in which they are located, and leases accounting for 20.1% of our annual rental income expire in 2006 and 19.4% in 2007. While we have estimated our cost of renewing leases that expire in 2006 and 2007, our estimates could be wrong. If we are unable to release space promptly, if the terms are significantly less favorable than anticipated or if the costs are higher, we may have to reduce our distributions to shareholders.

*Tenant defaults and bankruptcies may reduce our cash flow and distributions:* We may have difficulty in collecting from tenants in default, particularly if they declare bankruptcy. This could affect our cash flow and distributions to shareholders. Since many of our tenants are non-rated private companies, this risk may be enhanced. While the Company historically has experienced a low level of write-offs due to bankruptcy, there is inherent uncertainty in a tenant's ability to continue paying rent if they are in bankruptcy. As of December 31, 2005 the Company had approximately 37,000 square feet occupied by tenants that are protected by Chapter 11 of the U.S. Bankruptcy Code. Given the historical uncertainty of a tenant's ability to meet its lease obligations, we will continue to reserve any income that would have been realized on a straight line basis. Several other tenants have contacted us, requesting early termination of their lease, reduction in space under lease, rent deferment or abatement. At this time, the Company cannot anticipate what impact, if any, the ultimate outcome of these discussions will have on our operating results.

*We may be adversely affected by significant competition among commercial properties:* Many other commercial properties compete with our properties for tenants. Some of the competing properties may be newer and better located than our properties. We also expect that new properties will be built in our markets. Also, we compete with other buyers, many of which are larger than us, for attractive commercial properties. Therefore, we may not be able to grow as rapidly as we would like.

*We may be adversely affected if casualties to our properties are not covered by insurance:* We carry insurance on our properties that we believe is comparable to the insurance carried by other operators for similar properties. However, we could suffer uninsured losses or losses in excess of policy limits for such occurrences such as earthquakes that adversely affect us or even result in loss of the property. We might still remain liable on any mortgage debt or other unsatisfied obligations related to that property.

*The illiquidity of our real estate investments may prevent us from adjusting our portfolio to respond to market changes:* There may be delays and difficulties in selling real estate. Therefore, we cannot easily change our portfolio when economic conditions change. Also, tax laws limit a REIT's ability to sell properties held for less than four years.

*We may be adversely affected by changes in laws:* Increases in income and service taxes may reduce our cash flow and ability to make expected distributions to our shareholders. Our properties are also subject to various federal, state and local regulatory requirements, such as state and local fire and safety codes. If we fail to comply with these requirements, governmental authorities could fine us or courts could award damages against us. We believe our properties comply with all significant legal requirements. However, these requirements could change in a way that would reduce our cash flow and ability to make distributions to shareholders.

*We may incur significant environmental remediation costs:* Under various federal, state and local environmental laws, an owner or operator of real estate may have to clean spills or other releases of hazardous or toxic substances on or from a property. Certain environmental laws impose liability whether or not the owner knew of, or was responsible for, the presence of the hazardous or toxic substances. In some cases, liability may exceed the value of the property. The presence of toxic substances, or the failure to properly remedy any resulting contamination, may make it more difficult for the owner or operator to sell, lease or operate its property or to borrow money using its property as collateral. Future environmental laws may impose additional material liabilities on us.

#### **We are affected by the Americans with Disabilities Act.**

The Americans with Disabilities Act of 1990 requires that access and use by disabled persons of all public accommodations and commercial properties be facilitated. Existing commercial properties must be made accessible to disabled persons. While we have not estimated the cost of complying with this act, we do not believe the cost will be material. We have an ongoing program to bring our properties into what we believe is compliance with the Americans with Disabilities Act.

#### **We depend on external sources of capital to grow our company.**

We are generally required under the Internal Revenue Code to distribute at least 90% of our taxable income. Because of this distribution requirement, we may not be able to fund future capital needs, including any necessary building and tenant improvements, from operating cash flow. Consequently, we may need to rely on third-party sources of capital to fund our capital needs. We may not be able to obtain the financing on favorable terms or at all. Access to third-party sources of capital depends, in part, on general market conditions, the market's perception of our growth potential, our current and expected future earnings, our cash flow, and the market price per share of our common stock. If we cannot obtain capital from third-party sources, we may not be able to acquire properties when strategic opportunities exist, satisfy any debt service obligations, or make cash distributions to shareholders.

#### **Our ability to control our properties may be adversely affected by ownership through partnerships and joint ventures.**

We own most of our properties through our operating partnership. Our organizational documents do not prevent us from acquiring properties with others through partnerships or joint ventures. This type of investment may present additional risks. For example, our partners may have interests that differ from ours or that conflict with ours, or our partners may become bankrupt. During 2001, we entered into a joint venture arrangement that held property subject to debt. This joint venture has been liquidated and all debts paid; however, we may enter into similar arrangements with the same partner or other partners.

#### **We can change our business policies and increase our level of debt without shareholder approval.**

Our board of directors establishes our investment, financing, distribution and our other business policies and may change these policies without shareholder approval. Our organizational documents do not limit our level of debt. A change in our policies or an increase in our level of debt could adversely affect our operations or the price of our common stock.

**We can issue additional securities without shareholder approval.**

We can issue preferred, equity and common stock without shareholder approval. Holders of preferred stock have priority over holders of common stock, and the issuance of additional shares of stock reduces the interest of existing holders in our company.

**Increases in interest rates may adversely affect the market price of our common stock.**

One of the factors that influences the market price of our common stock is the annual rate of distributions that we pay on our common stock, as compared with interest rates. An increase in interest rates may lead purchasers of REIT shares to demand higher annual distribution rates, which could adversely affect the market price of our common stock.

**Shares that become available for future sale may adversely affect the market price of our common stock.**

Substantial sales of our common stock, or the perception that substantial sales may occur, could adversely affect the market price of our common stock. As of December 31, 2005, Public Storage owned 25.1% of the outstanding shares of our common stock (44.1% upon conversion of its interest in our operating partnership). These shares, as well as shares of common stock held by certain other significant shareholders, are eligible to be sold in the public market, subject to compliance with applicable securities laws.

**We depend on key personnel.**

We depend on our key personnel, including Ronald L. Havner, Jr., our Chairman of the Board, and Joseph D. Russell, Jr., our President and Chief Executive Officer. The loss of Mr. Havner, Mr. Russell, or other key personnel could adversely affect our operations. We maintain no key person insurance on our key personnel.

**Terrorist attacks and the possibility of wider armed conflict may have an adverse impact on our business and operating results and could decrease the value of our assets.**

Terrorist attacks and other acts of violence or war, such as those that took place on September 11, 2001, could have a material adverse impact on our business and operating results. There can be no assurance that there will not be further terrorist attacks against the United States or its businesses or interests. Attacks or armed conflicts that directly impact one or more of our properties could significantly affect our ability to operate those properties and thereby impair our operating results. Further, we may not have insurance coverage for all losses caused by a terrorist attack. Such insurance may not be available, or if it is available and we decide to obtain such terrorist coverage, the cost for the insurance may be significant in relationship to the risk overall. In addition, the adverse effects that such violent acts and threats of future attacks could have on the U.S. economy could similarly have a material adverse effect on our business and results of operations. Finally, further terrorist acts could cause the United States to enter into a wider armed conflict which could further impact our business and operating results.

**Change in taxation of corporate dividends may adversely affect the value of our shares.**

The Jobs and Growth Tax Relief Reconciliation Act of 2003, enacted on May 28, 2003, generally reduces to 15% the maximum marginal rate of federal tax payable by individuals on dividends received from a regular C corporation. This reduced tax rate, however, will not apply to dividends paid to individuals by a REIT on its shares except for certain limited amounts. The earnings of a REIT that are distributed to its shareholders still will generally be subject to less federal income taxation on an aggregate basis than earnings of a non-REIT C corporation that are distributed to its shareholders net of corporate-level income tax. The Jobs and Growth Tax Act, however, could cause individual investors to view stocks of regular C corporations as more attractive relative to shares of REITs than was the case prior to the enactment of the legislation because the dividends from regular C corporations, which previously were taxed at the same rate as REIT dividends, now will be taxed at a maximum marginal rate of 15% while REIT dividends will be taxed at a maximum marginal rate of 35%. We cannot predict what effect, if any, the enactment of this legislation may have on the value of our common stock, either in terms of price or relative to other investments.

**ITEM 1B. UNRESOLVED STAFF COMMENTS**

None.

**ITEM 2. PROPERTIES**

As of December 31, 2005, the Company owned approximately 10.4 million square feet of flex space, 3.9 million square feet of industrial space, and 3.2 million square feet of office space concentrated primarily in eight major markets consisting of Southern and Northern California, Southern and Northern Texas, Florida, Virginia, Maryland and Oregon. Additionally, the Company owned 43,000 square feet of flex space in Florida classified as properties held for disposition at December 31, 2005. The weighted average occupancy rate throughout 2005 was 92.2% and the average realized rental revenue per square foot was \$13.76, both of which exclude the effect of assets classified as held for disposition.

The following table contains information about all properties (excluding those classified as assets held for disposition) owned by the Company as of December 31, 2005 and the weighted average occupancy rates throughout 2005 (except as set forth below, all of the properties are held in fee simple interest, in thousands):

(1) The Company owns one property that is subject to a ground lease in Las Colinas, Texas.

(2) Three commercial properties, one in San Diego and two in Chantilly, serve as collateral to mortgage notes payable. For more information, see Note 6 of the Consolidated Financial Statements.

Each of these properties will continue to be used for its current purpose. Competition exists in the market areas in which these properties are located. Barriers to entry are relatively low for competitors with the necessary capital and the Company will be competing for properties and tenants with entities that have greater financial resources than the Company. The Company believes that while overall demand for commercial space softened in 2005 and 2004, there is sufficient demand to maintain healthy occupancy rates. For information regarding general competitive conditions to which the Company's properties are or may be subject, see "Management's Discussion and Analysis of Financial Condition and Results of Operations — Overview — Effect of Economic Conditions on the Company's Primary Markets."

The Company has no present plans for any material renovation, improvement or development of its properties. The Company typically renovates its properties in connection with the releasing of space to tenants and expects that it will pay the costs of such renovations from rental income.

The Company has risks that tenants will default on leases and declare bankruptcy. Management believes these risks are mitigated through the Company's geographic diversity and diverse tenant base.

The Company evaluates the performance of its properties primarily based on net operating income (“NOI”). NOI is defined by the Company as rental income as defined by GAAP less cost of operations as defined by GAAP. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Overview — Concentration of Portfolio by Region” below for more information on NOI, including why the Company presents NOI and how the Company uses NOI. The following information illustrates rental income, cost of operations and NOI generated for the Company’s total portfolio in 2005, 2004 and 2003 by geographic region and by property classifications. As a result of acquisitions and dispositions, certain properties were not held for the full year.

The Company’s calculation of NOI may not be comparable to those of other companies and should not be used as an alternative to measures of performance in accordance with generally accepted accounting principles. The tables below also include a reconciliation of NOI to the most comparable amounts based on GAAP (*in thousands*):

Income from continuing operations before minority interests and equity in income of liquidated joint venture .....	<u>\$ 75,798</u>	<u>\$ 71,195</u>	<u>\$ 73,423</u>

### Significant Properties

As of and for the year ended December 31, 2005, one of the Company's properties had a book value of more than 10% of the Company's total assets. The property, known as Miami International Commerce Center ("MICC"), is a business park in Miami, Florida consisting of 53 buildings (3.2 million square feet) consisting of flex (619,000 square feet), industrial (2.6 million square feet), and office (12,000 square feet) space. The property was purchased on December 30, 2003 and has a net book value of \$184.9 million, representing approximately 12.6% of the Company's total assets at December 31, 2005.

During 2005, the Company sold approximately 100,000 square feet and a small parcel of land at MICC for a combined sales price of approximately \$18.0 million.

MICC property taxes for the year ended December 31, 2005 were approximately \$3.4 million at a rate of 2.1% of the respective parcel value.

The following table sets forth information with respect to occupancy and rental rates at Miami International Commerce Center for each of the last five years, including a 56,000 square foot retail center and 104,000 square feet of flex space disposed of and held for disposition:

	2001	2002	2003	2004	2005
Weighted average occupancy rate .....	89.3%	86.3%	81.7%	83.8%	91.8%
Realized rent per square foot .....	\$ 7.06	\$ 6.96	\$ 7.12	\$ 7.75	\$ 7.47

There is no one tenant that occupies ten percent or more of the rentable square footage at Miami International Commerce Center.

The following table sets forth information with respect to lease expirations at Miami International Commerce Center (*in thousands, except number of leases expiring*):

Year of Lease Expiration	Number of Leases Expiring	Rentable Square Footage Subject to Expiring Leases	Annual Base Rents Under Expiring Leases	Percentage of Total Annual Base Rents Represented by Expiring Leases
2006 .....	92	597	\$ 4,687	19.6%
2007 .....	93	680	5,497	22.9%
2008 .....	89	847	6,467	27.0%
2009 .....	33	285	2,286	9.5%
2010 .....	36	525	3,989	16.6%
Thereafter .....	<u>7</u>	<u>120</u>	<u>1,036</u>	<u>4.4%</u>
Total .....	<u>350</u>	<u>3,054</u>	<u>\$ 23,962</u>	<u>100.0%</u>

The following table sets forth information with respect to tax depreciation at Miami International Commerce Center (*in thousands, except year data*):

	<u>Tax Basis</u>	<u>Rate of Depreciation</u>	<u>Method</u>	<u>Life In Years</u>	<u>Accumulated Depreciation</u>
Land Improvements .....	\$ 46,038	8.8%	MACRS, 150%	15	\$ 9,338
Improvements .....	25,110	22.3%	VARIOUS	5	16,310
Tenant Buildings .....	<u>83,892</u>	2.4%	MACRS, SL	VAR	<u>5,059</u>
Total .....	<u>\$ 155,040</u>				<u>\$ 30,707</u>

Accumulated depreciation for personal property shown in the preceding table was derived using the mid-quarter convention.

### Portfolio Information

Approximately 60.1% of the Company's annual rents are derived from large tenants, which consist of tenants with leases averaging greater than or equal to 5,000 square feet. These tenants generally sign longer leases, require more generous tenant improvements, are typically represented by a broker and are more creditworthy tenants. The remaining 39.9% of the Company's annual rents are derived from small tenants with average space requirements of less than 5,000 square feet and a shorter lease term duration. Tenant improvements are relatively less for these tenants and most of these tenants are not represented by brokers and therefore the Company does not pay lease commissions. The following tables set forth the lease expirations for the entire portfolio of properties owned as of December 31, 2005 in addition to bifurcating the lease expirations for properties serving primarily small businesses and those properties serving primarily larger businesses (*in thousands*):

#### Lease Expirations (Entire Portfolio) as of December 31, 2005

<u>Year of Lease Expiration</u>	<u>Rentable Square Footage Subject to Expiring Leases</u>	<u>Annual Base Rents Under Expiring Leases</u>	<u>Percentage of Total Annual Base Rents Represented by Expiring Leases</u>
2006 .....	3,518	\$ 42,697	20.1%
2007 .....	3,422	41,199	19.4%
2008 .....	3,319	43,387	20.5%
2009 .....	1,900	21,761	10.3%
2010 .....	1,860	25,385	12.0%
Thereafter .....	<u>2,389</u>	<u>37,588</u>	<u>17.7%</u>
Total .....	<u>16,408</u>	<u>\$ 212,017</u>	<u>100.0%</u>

#### Lease Expirations (Small Tenant Portfolio) as of December 31, 2005

The Company's small tenant portfolio consists of properties with average leases less than 5,000 square feet.

<u>Year of Lease Expiration</u>	<u>Rentable Square Footage Subject to Expiring Leases</u>	<u>Annual Base Rents Under Expiring Leases</u>	<u>Percentage of Small Tenant Annual Base Rents Represented by Expiring Leases</u>
2006 .....	1,822	\$ 23,506	27.8%

Total .....	<u>5,863</u>	<u>\$ 84,576</u>	<u>100.0%</u>

### Lease Expirations (Large Tenant Portfolio) as of December 31, 2005

The Company's large tenant portfolio consists of properties with leases averaging greater than or equal to 5,000 square feet.

<u>Year of Lease Expiration</u>	<u>Rentable Square Footage Subject to Expiring Leases</u>	<u>Annual Base Rents Under Expiring Leases</u>	<u>Percentage of Large Tenant Annual Base Rents Represented by Expiring Leases</u>
2006 .....	1,696	\$ 19,191	15.1%
2007 .....	1,783	19,214	15.1%
2008 .....	2,208	26,389	20.7%
2009 .....	1,292	12,097	9.4%
2010 .....	1,468	18,863	14.8%
Thereafter .....	2,098	31,687	24.9%
Total .....	<u>10,545</u>	<u>\$ 127,441</u>	<u>100.0%</u>

#### ITEM 3. LEGAL PROCEEDINGS

We are not presently subject to material litigation nor, to our knowledge, is any material litigation threatened against us, other than routine actions for negligence and other claims and administrative proceedings arising in the ordinary course of business, some of which are expected to be covered by liability insurance or third party indemnifications and all of which collectively we do not expect to have a material adverse effect on our financial condition, results of operations, or liquidity.

#### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The Company did not submit any matter to a vote of security holders in the fourth quarter of the fiscal year ended December 31, 2005.

#### ITEM 4A. EXECUTIVE OFFICERS OF THE REGISTRANT

The following is a biographical summary of the executive officers of the Company:

Joseph D. Russell, Jr., age 46, has been President since September 2002 and was named Chief Executive Officer and elected as a Director in August 2003. Mr. Russell joined Spieker Partners in 1990 and became an officer of Spieker Properties when it went public as a REIT in 1993. Prior to its merger with Equity Office Properties ("EOP") in 2001, Mr. Russell was President of Spieker Properties' Silicon Valley Region from 1999 to 2001. Mr. Russell earned a Bachelor of Science degree from the University of Southern California and a Masters of Business Administration from the Harvard Business School. Prior to entering the commercial real estate business, Mr. Russell spent approximately six years with IBM in various marketing positions. Mr. Russell is a member and past President of the National Association of Industrial and Office Parks, Silicon Valley Chapter.

John Petersen, age 42, has been Executive Vice President and Chief Operating Officer since he joined the Company in December 2004. Prior to joining the Company, Mr. Petersen was Senior Vice President, San Jose Region, for Equity Office Properties from July 2001 to December 2004, responsible for 11.3 million square feet of multi-tenant office, industrial and R&D space in Silicon Valley. Prior to EOP, Mr. Petersen was Senior Vice President with Spieker Properties, from 1995 to 2001 overseeing the growth of that company's portfolio in San Jose, through acquisition and development of nearly three million square feet. Mr. Petersen is a graduate of The Colorado College in Colorado Springs, Colorado, and was recently the President of National Association of Industrial and Office Parks, Silicon Valley Chapter.

Edward A. Stokx, age 40, a certified public accountant, has been Chief Financial Officer and Secretary of the Company since December 2003 and Executive Vice President since March 2004. Mr. Stokx has overall responsibility for the Company's finance and accounting functions. In addition he has responsibility for executing the Company's financial initiatives. Mr. Stokx joined Center Trust, a developer, owner, and operator of retail shopping centers in 1997. Prior to his promotion to Chief Financial Officer and Secretary in 2001 he served as

Senior Vice President, Finance and Controller. After Center Trust's merger in January 2003 with another public REIT, Mr. Stokx provided consulting services to various entities. Prior to joining Center Trust, Mr. Stokx was with Deloitte and Touche from 1989 to 1997, with a focus on real estate clients. Mr. Stokx earned a Bachelor of Science degree in Accounting from Loyola Marymount University.

Brett Franklin, age 41, is Senior Vice President, Acquisitions & Dispositions. Mr Franklin joined the Company as Vice President of Acquisitions in December 1997. Since joining the Company, Mr. Franklin has been involved in acquiring over 12.5 million square feet of commercial real estate in Northern and Southern California, Arizona, Texas, Maryland, Virginia, Oregon and Miami. Prior to joining, Mr. Franklin worked for Public Storage Pickup & Delivery as Vice President of Acquisitions from 1996 to 1997. His duties included acquiring and leasing over 1.5 million square feet of industrial properties in 16 cities across the country. From 1995 to October 1996, Mr. Franklin was a business consultant to San Diego and Los Angeles based real estate firms. From 1992 until 1995, Mr. Franklin held various positions for FORCE, Inc., an environmental remediation and technology company located in Camarillo, California. His positions included Director of Marketing and Chief Operating Officer. From 1987 until 1992, he managed and operated a real estate brokerage company in western Los Angeles. Mr. Franklin received his Bachelor of Science degree from the University of California at Los Angeles. He is a member of the Urban Land Institute.

Maria R. Hawthorne, age 46, was promoted to Senior Vice President of the Company in March 2004, with responsibility for property operations on the East Coast, which include Northern Virginia, Maryland and Florida. Ms. Hawthorne has been with the Company and its predecessors for eighteen years. From June 2001 through March 2004, Ms. Hawthorne was Vice President of the Company, responsible for property operations in Northern Virginia. From July 1994 to June 2001, Ms. Hawthorne was a Regional Manager of the Company in Northern Virginia. From August 1988 to July 1994, Ms. Hawthorne was the Director of Leasing and Property Manager for American Office Park Properties. Ms. Hawthorne earned a Bachelor of Arts Degree in International Relations from Pomona College.

Joseph E. Miller, age 42, was promoted to Senior Vice President, CFO of Operations in August 2004. Mr. Miller has overall responsibility for accounting, compliance, and internal reporting systems for the Company's property operations. Mr Miller previously served as Vice President, Corporate Controller with responsibilities for financial and operational accounting, reporting, and analysis. Mr. Miller joined the Company in August 2001 as Vice President, Property Operations Controller focusing on operational systems and processes. Previously, Mr. Miller was Corporate Controller for Maguire Partners, a Los Angeles commercial real estate developer, owner, and manager, from May 1997 to August 2001. Prior to joining Maguire Partners, Mr. Miller was an audit manager at Ernst & Young with a focus on real estate clients. Mr. Miller is a certified public accountant and has earned a Bachelor of Science degree in Business Administration from California State University, Northridge, and a Masters of Business Administration from the University of Southern California.

## PART II

### ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

#### a. Market Price of the Registrant's Common Equity:

The Common Stock of the Company trades on the American Stock Exchange under the symbol PSB. The following table sets forth the high and low sales prices of the Common Stock on the American Stock Exchange for the applicable periods:

<u>Three Months Ended</u>	<u>Range</u>	
	<u>High</u>	<u>Low</u>
March 31, 2004 .....	\$ 46.35	\$ 41.30
June 30, 2004 .....	\$ 46.60	\$ 35.38
September 30, 2004 .....	\$ 41.30	\$ 38.51
December 31, 2004 .....	\$ 45.95	\$ 39.83
March 31, 2005 .....	\$ 44.90	\$ 39.70
June 30, 2005 .....	\$ 44.45	\$ 38.85
September 30, 2005 .....	\$ 46.70	\$ 43.38
December 31, 2005 .....	\$ 49.20	\$ 42.99

As of February 28, 2006, there were 562 holders of record of the Common Stock.

#### b. Dividends

Holders of Common Stock are entitled to receive distributions when, as and if declared by the Company's Board of Directors out of any funds legally available for that purpose. The Company is required to distribute at least 90% of its taxable income prior to the filing of the Company's tax return to maintain its REIT status for federal income tax purposes. It is management's intention to pay distributions of not less than these required amounts.

Distributions paid per share of Common Stock for 2005 and 2004 amounted to \$1.16 per year. In 2005, the Company continued to pay quarterly dividends of \$0.29 per common share. The Board of Directors has established a distribution policy to maximize the retention of operating cash flow and distribute the minimum amount required for the Company to maintain its tax status as a REIT. Pursuant to restrictions contained in the Company's Credit Facility with Wells Fargo Bank, distributions may not exceed 95% of funds from operations, as defined, for any four consecutive quarters. For more information on the Credit Facility, see Note 5 to the consolidated financial statements.

#### c. Issuer Repurchases of Equity Securities:

The Company's Board of Directors has authorized the repurchase, from time to time, of up to 4.5 million shares of the Company's common stock on the open market or in privately negotiated transactions. The program does not expire.

The following table contains information regarding the Company's repurchase of its common stock during the three months ended December 31, 2005:

<u>Period Covered</u>	<u>Total Number of Shares Repurchased</u>	<u>Average Price Paid per Share</u>	<u>Total Number of Shares Repurchased as Part of Publicly Announced Program</u>	<u>Maximum Number of Shares that May Yet Be Repurchased Under the Program</u>
October 1 through October 31, 2005 .....	95,800	\$ 44.17	95,800	1,659,389
November 1 through November 30, 2005 .....	—	\$ —	—	1,659,389
December 1 through December 31, 2005 .....	142,500	\$ 48.95	142,500	1,516,889
Total .....	<u>238,300</u>	<u>\$ 47.03</u>	<u>238,300</u>	<u>1,516,889</u>

See Note 9 to the consolidated financial statements for additional information on repurchases and redemptions of equity securities.

## ITEM 6. SELECTED FINANCIAL DATA

The following sets forth selected consolidated and combined financial and operating information on a historical basis of the Company. The following information should be read in conjunction with the consolidated financial statements and notes thereto of the Company included elsewhere in this Form 10-K. Note that historical results from 2001 through 2004 were reclassified to conform with 2005 presentation for discontinued operations. See Note 3 of the Notes to Consolidated Financial Statements included elsewhere in this Form 10-K for a discussion of income from discontinued operations.

- (1) In each of the years ended December 31, 2005, 2004, 2003, 2002 and 2001, the annual distribution was \$1.16 per common share. In December 2001, the Board of Directors declared a one-time special distribution of \$0.15 per common share.
- (2) Funds From Operations (“FFO”) is computed in accordance with the White Paper on FFO approved by the Board of Governors of the National Association of Real Estate Investment Trusts (“NAREIT”). The White Paper defines FFO as net income, computed in accordance with generally accepted accounting principles (“GAAP”), before depreciation, amortization, minority interest in income, and extraordinary items. FFO should be analyzed in conjunction with net income. However, FFO should not be viewed as a substitute for net income as a measure of operating performance or liquidity as it does not reflect depreciation and amortization costs or the level of capital expenditure and leasing costs necessary to maintain the operating performance of the Company’s properties, which are significant economic costs and could materially impact the Company’s results from operations. Other REITs may use different methods for calculating FFO and, accordingly, the Company’s FFO may not be comparable to other real estate companies. See Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Liquidity and Capital Resources — Funds from Operations,” for a reconciliation of FFO and net income allocable to common shareholders and for information on why the Company presents FFO.

## **ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion and analysis of the results of operations and financial condition should be read in conjunction with the selected financial data and the Company's consolidated financial statements and notes thereto included elsewhere in the Form 10-K.

*Forward-Looking Statements:* Forward-looking statements are made throughout this Annual Report on Form 10-K. Any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, the words "may," "believes," "anticipates," "plans," "expects," "seeks," "estimates," "intends," and similar expressions are intended to identify forward-looking statements. There are a number of important factors that could cause the results of the Company to differ materially from those indicated by such forward-looking statements, including those detailed under the heading "Item 1A. Risk Factors." In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of the information contained in such forward-looking statements should not be regarded as a representation by us or any other person that our objectives and plans will be achieved. Moreover, we assume no obligation to update these forward-looking statements to reflect actual results, changes in assumptions or changes in other factors affecting such forward-looking statements.

### **Overview**

As of December 31, 2005, the Company owned and operated 17.6 million rentable square feet of multi-tenant flex, industrial and office properties located in eight states.

The Company focuses on increasing profitability and cash flow aimed at maximizing shareholder value. The Company strives to maintain high occupancy levels while increasing rental rates when market conditions allow. The Company also acquires properties it believes will create long-term value, and disposes of properties which no longer fit within the Company's strategic objectives or in situations where the Company believes it can optimize cash proceeds. Operating results are driven by income from rental operations and are therefore substantially influenced by rental demand for space within our properties.

In 2005, the Company continued to experience challenging commercial real estate conditions in a number of markets including Dallas, Texas; Portland, Oregon; Austin, Texas and Northern California. These markets continued to experience weak demand and over-supply resulting in persistent downward pressure on rental rates combined with higher levels of concessions. While these markets continued to experience challenges throughout the year, there have been signs that these markets may be slowly recovering as market activity has accelerated slightly. The balance of the Company's markets such as Southern California, Virginia, Maryland and Miami, Florida demonstrated improving market conditions. During 2005, the Company still faced rental rate roll downs primarily on leases originally signed at a high market point prior to 2002. As of December 31, 2005, less than 10% of the Company's leases were executed prior to December 31, 2002. In these markets, conditions demonstrated steady improvement over the course of the year.

The Company successfully leased or re-leased 5.2 million square feet of space in 2005 and achieved an overall occupancy of 93.6%, as of December 31, 2005. Overall, the Company continued to experience transaction costs at higher than historical levels. Total net operating income increased from the year ended December 31, 2004 to 2005 by \$5.9 million or 4.0%. See further discussion of operating results below.

### ***Critical Accounting Policies and Estimates:***

Our accounting policies are described in Note 2 to the consolidated financial statements included in this Form 10-K. We believe our most critical accounting policies relate to revenue recognition, allowance for doubtful accounts, impairment of long-lived assets, depreciation, accrual of operating expenses and accruals for contingencies, each of which we discuss below.

*Revenue Recognition:* We recognize revenue in accordance with Staff Accounting Bulletin No. 101 of the Securities and Exchange Commission, Revenue Recognition in Financial Statements (“SAB 101”), as amended. SAB 101 requires that the following four basic criteria must be met before revenue can be recognized: persuasive evidence of an arrangement exists; the delivery has occurred or services rendered; the fee is fixed and determinable; and collectibility is reasonably assured. All leases are classified as operating leases. Rental income is recognized on a straight-line basis over the terms of the leases. Straight-line rent is recognized for all tenants with contractual increases in rent that are not included on the Company’s credit watch list. Deferred rent receivables represent rental revenue recognized on a straight-line basis in excess of billed rents. Reimbursements from tenants for real estate taxes and other recoverable operating expenses are recognized as rental income in the period the applicable costs are incurred.

*Allowance for Doubtful Accounts:* Rental revenue from our tenants is our principal source of revenue. We monitor the collectibility of our receivable balances including the deferred rent receivable on an on-going basis. Based on these reviews, we maintain an allowance for doubtful accounts for estimated losses resulting from the possible inability of our tenants to make required rent payments to us. Tenant receivables and deferred rent receivables are carried net of the allowances for uncollectible tenant receivables and deferred rent. As discussed below, determination of the adequacy of these allowances requires significant judgments and estimates. Estimate of the required allowance is subject to revision as the factors discussed below change and is sensitive to the effect of economic and market conditions on our tenants.

Tenant receivables consist primarily of amounts due for contractual lease payments, reimbursements of common area maintenance expenses, property taxes and other expenses recoverable from tenants. Determination of the adequacy of the allowance for uncollectible current tenant receivables is performed using a methodology that incorporates specific identification, aging analysis, an overall evaluation of the historical loss trends and the current economic and business environment. The specific identification methodology relies on factors such as the age and nature of the receivables, the payment history and financial condition of the tenant, the assessment of the tenant’s ability to meet its lease obligations, and the status of negotiations of any disputes with the tenant. The allowance also includes a reserve based on historical loss trends not associated with any specific tenant. This reserve as well as the specific identification reserve is reevaluated quarterly based on economic conditions and the current business environment.

Deferred rents receivable represents the amount that the cumulative straight-line rental income recorded to date exceeds cash rents billed to date under the lease agreement. Given the longer-term nature of these types of receivables, determination of the adequacy of the allowance for unbilled deferred rents receivables is based primarily on historical loss experience. Management evaluates the allowance for unbilled deferred rents receivable using a specific identification methodology for significant tenants designed to assess their financial condition and ability to meet their lease obligations.

*Impairment of Long-Lived Assets:* The Company evaluates a property for potential impairment whenever events or changes in circumstances indicate that its carrying amount may not be recoverable. On a quarterly basis, the Company evaluates the whole portfolio for impairment based on current operating information. In the event that these periodic assessments reflect that the carrying amount of a property exceeds the sum of the undiscounted cash flows (excluding interest) that are expected to result from the use and eventual disposition of the property, the Company would recognize an impairment loss to the extent the carrying amount exceeded the estimated fair value of the property. The estimation of expected future net cash flows is inherently uncertain and relies on subjective assumptions dependent upon future and current market conditions and events that affect the ultimate value of the property. It requires management to make assumptions related to the property such as future rental rates, tenant allowances, operating expenditures, property taxes, capital improvements, occupancy levels, and the estimated proceeds generated from the future

sale of the property. These assumptions could differ materially from actual results in future periods. Since Statement of Financial Accounting Standards (“SFAS”) No. 144 provides that the future cash flows used in this analysis be considered on an undiscounted basis, our historically established intent to hold properties over the long term directly decreases the likelihood of recording an impairment loss. If our strategy changes or if market conditions otherwise dictate an earlier sale date, an impairment loss could be recognized and such loss could be material.

*Depreciation:* We compute depreciation on our buildings and equipment using the straight-line method based on estimated useful lives of generally 30 and 5 years. A significant portion of the acquisition cost of each property is allocated to building and building components. The allocation of the acquisition cost to building and building components, as well as, the determination of their useful lives are based on estimates. If we do not appropriately allocate to these components or we incorrectly estimate the useful lives of these components, our computation of depreciation expense may not appropriately reflect the actual impact of these costs over future periods, which will affect net income. In addition, the net book value of real estate assets could be over or understated. The statement of cash flows, however, would not be affected.

*Accruals of Operating Expenses:* The Company accrues for property tax expenses, performance bonuses and other operating expenses each quarter based on historical trends and anticipated disbursements. If these estimates are incorrect, the timing of expense recognition will be affected.

*Accruals for Contingencies:* The Company is exposed to business and legal liability risks with respect to events that may have occurred, but in accordance with U.S. generally accepted accounting principles (“GAAP”) has not accrued for such potential liabilities because the loss is either not probable or not estimable. Future events and the result of pending litigation could result in such potential losses becoming probable and estimable, which could have a material adverse impact on our financial condition or results of operations.

*Effect of Economic Conditions on the Company’s Operations:* During 2004 and 2005, despite improving economic conditions in the United States, the Company continued to experience downward pressure on market rental rates and demand for greater rent concessions and tenant improvement allowances in certain markets. Increasing demand for commercial space, however, has partially mitigated this effect with improving occupancy rates in most of the Company’s markets.

While the Company historically has experienced a low level of write-offs due to bankruptcy, there is inherent uncertainty in a tenant’s ability to continue paying rent if they are in bankruptcy. As of December 31, 2005 the Company had approximately 37,000 square feet occupied by tenants that are protected by Chapter 11 of the U.S. Bankruptcy Code. Given the historical uncertainty of a tenant’s ability to meet its lease obligations, we will continue to reserve any income that would have been realized on a straight line basis. Several other tenants have contacted us, requesting early termination of their lease, reduction in space under lease, rent deferment or abatement. At this time, the Company cannot anticipate what impact, if any, the ultimate outcome of these discussions will have on our operating results.

*Effect of Economic Conditions on the Company’s Primary Markets:* The Company has concentrated its operations in nine markets. Each of these markets has been affected by changing economic conditions in some way. The Company’s overall view of these markets as of December 31, 2005 is summarized below. During the year ended December 31, 2005, the Company has seen rental rates on executed leases decrease by an average of 1.1% from the most recent in-place rents. Each of the nine markets that the Company owns assets in is subject to its own unique market influences. The Company has outlined the various market influences for each specific market below. In addition, the Company has compiled market occupancy information using third party reports for each of the respective markets. These sources are deemed to be reliable by the Company, but there can be no assurance that these reports are accurate.

The Company owns approximately 3.9 million square feet in Southern California. While this is one of the more stable markets in the country, in 2005 the market continued to experience relatively flat rental rates. Vacancy rates have decreased slightly throughout Southern California with an average market vacancy rate of 5.9% for 2005. The rental rates for the Company’s properties improved slightly over the past year as economic conditions

have improved and the supply of competing product has diminished. The Company's vacancy rate at December 31, 2005 was approximately 4.1%.

The Company owns approximately 2.8 million square feet in the Northern Virginia submarket of Washington D.C., where the average market vacancy rate was 9.4% for 2005. Washington D.C. submarkets have continued to be positively impacted by increased federal government spending and a vibrant government contracting trend. The Company's vacancy rate at December 31, 2005 was approximately 3.4%.

The Company owns approximately 1.2 million square feet in the Maryland submarket of Washington D.C. The portfolio is located primarily in the Montgomery County submarket which remains stable, with signs of increasing rental rates. The Company expects the business of the federal government, defense contractors and the biotech industry to remain strong in 2006. The Company's vacancy rate at December 31, 2005 was approximately 2.4% compared to the 2005 market average of 9.9%.

The Company owns approximately 1.5 million square feet in Northern California with a concentration in Sacramento, the East Bay (Hayward and San Ramon) and the Silicon Valley (San Jose). The vacancy rates in these submarkets stand at 9.7%, 9.3% and 8.9%, respectively. Market rental rates dropped dramatically in 2005 and 2004 as a result of an oversupply of commercial space and weak demand. This is a continued result of the technology crash in prior years. The Company's vacancy rate at December 31, 2005 was approximately 5.9%.

The Company owns approximately 1.3 million square feet in the Beaverton submarket of Portland, Oregon. While market conditions have not changed dramatically from 2004, the Company has experienced some improvement in lease terms as a result of increasing lease activity. The vacancy rate in this market is over 20%. On the supply side, the Company does not believe significant new construction starts will occur during 2006 as light demand and general availability has had a negative impact on the market rental rates. Leasing activity in the market is occurring generally at rates 25% to 40% below in-place rents. The Company's vacancy rate at December 31, 2005 was approximately 13.2%.

The Company owns approximately 1.7 million square feet in the Dallas Metroplex market. The vacancy rate in Las Colinas, where most of the Company's properties are located, is 13.2%. Over the last two years, the number of new properties coming on-line has decreased; however some new construction continued, which included both speculative construction, as well as owner user construction. The Company believes that any such new construction could cause vacancy rates to rise and limit opportunities to increase rental rates. The Company's vacancy rate at December 31, 2005 was approximately 15.3%.

The Company owns approximately 1.2 million square feet in the Austin and Greater Houston markets. The Austin market has been adversely affected by downturns in the technology industry. These conditions have resulted in increased competition for tenants, resulting in lower rental rates and increased rent concessions, tenant improvement allowances and lease commissions. Unlike the Austin market, Houston continues to stabilize occupancy and rental rates. With a more diverse tenant base, this market has not been as significantly impacted as other parts of Texas that were more reliant on the telecommunications and technology industries which have contracted over the last several years. In addition, the strong oil and gas industry has helped stabilize and improve the Houston market. The Company's vacancy rate at December 31, 2005 was approximately 8.4%.

In December, 2003, the Company acquired a 3.4 million square foot property located in the Airport West submarket of Miami-Dade County in Florida. The property's vacancy rate upon acquisition was approximately 16.6%, compared to a vacancy rate of approximately 12.7% for the submarket. The property is located less than one mile from the cargo entrance of the Miami International Airport, which is recognized as one of the nation's busiest cargo and passenger airports. The Company has improved occupancy to 95.9% at December 31, 2005.

The Company owns approximately 679,000 square feet in the Phoenix market. Overall, the Phoenix market has been characterized by steady growth. However, average market rental rates have declined over the past several years as demand for space subsided. The vacancy rate in this market is over 6%. The Company's vacancy rate at December 31, 2005 was approximately 5.9%.

***Growth of the Company's Operations and Acquisitions and Dispositions of Properties:*** During 2004 and 2005, the Company focused on maximizing cash flow from its existing core portfolio of properties and through

acquisitions and dispositions of properties, expanding its presence in existing markets through strategic acquisitions and strengthening its balance sheet, primarily through the issuance of preferred equity. The Company has historically maintained low levels of debt. The primary leverage used by the Company has been through the issuance of preferred equity; this approach is intended to provide the Company with the flexibility for future growth without the need to issue additional common stock.

During 2005, the Company acquired a 233,000 square foot, multi-tenant flex and office property in San Diego for \$35.1 million including the assumption of a \$15.0 million mortgage which bears an interest rate of 5.73% and matures on March 1, 2013. During 2004, the Company acquired a 165,000 square foot office complex in Fairfax, Virginia, for \$24.1 million. During 2003, the Company added approximately 4.1 million square feet to its portfolio at an aggregate cost of approximately \$282.4 million. The Company acquired 544,000 square feet in Southern California for \$60.0 million, 113,000 square feet in Northern Texas for \$7.8 million, 3.4 million square feet in Florida for \$205.0 million, and 110,000 square feet in Phoenix, Arizona for \$9.6 million. The Company plans to continue to build its presence in existing markets by acquiring high quality facilities in selected markets. The Company targets properties with below market rents which may offer it growth in rental rates above market averages, and which offer the Company the ability to achieve economies of scale resulting in more efficient operations.

Subsequent to December 31, 2005 the Company acquired WesTech Business Park, a 366,000 square foot multi-tenant flex and office building park in Silver Spring, Maryland for approximately \$69.6 million. The park, which had occupancy of approximately 95% at the time of acquisition, consists of nine single story buildings. The park's major tenant is Kaiser Permanente, which currently leases approximately 158,000 square feet in five of the nine buildings. Leases for Kaiser Permanente expire on various dates from September 2006 to November 2011. The remaining buildings had 16 tenants ranging in size from 2,000 square feet to 26,000 square feet.

In 2005, the Company sold Woodside Corporate Park located in Beaverton, Oregon. Net proceeds from the sales were approximately \$64.5 million and the Company reported a gain of \$12.5 million. The sale consisted of 13 buildings comprising approximately 574,000 square feet and approximately 3.3 acres of adjacent land. The park was 76.8% leased at the time of the sale. In addition, the Company sold 8.2 acres of land in the Beaverton area for approximately \$3.6 million resulting in a gain of \$1.8 million. Six units totaling approximately 44,000 square feet and a small parcel of land at Miami International Commerce Center ("MICC") were sold for a combined sale price of approximately \$5.8 million. The Company sold a retail center located at MICC consisting of 56,000 square feet for a sales price of \$12.2 million resulting in a gain of \$967,000.

In 2004, the Company sold a 43,000 square foot flex facility in Austin, Texas, for gross proceeds of approximately \$1.2 million, a 30,500 square foot building in Beaverton, Oregon for gross proceeds of \$3.1 million, a 10,000 and 7,100 square foot unit at MICC, with combined gross proceeds of \$1.9 million and two flex parks totaling approximately 400,000 square feet in Maryland for combined gross proceeds of approximately \$44.2 million. In connection with these sales, the Company reported an aggregate gain of \$15.5 million.

During the first half of 2003, the Company identified a property in Lakewood, California with 57,000 square feet, two buildings in Nashville, Tennessee totaling 138,000 square feet, and five office and flex buildings totaling 342,000 square feet and a 4.5 acre parcel of vacant land in Beaverton, Oregon as assets the Company intended to sell. The sale of Lakewood, California was completed early in the second quarter of 2003 with net proceeds of approximately \$6.3 million. The sale of the Nashville properties was completed in June, 2003 with net proceeds of \$5.1 million. A gain on the Lakewood and Nashville properties of \$3.5 million was recognized in the second quarter of 2003. During the third quarter of 2003, the Company sold a one-acre parcel of land located in Beaverton, Oregon with net proceeds of approximately \$733,000 resulting in a gain of approximately \$14,000. During the fourth quarter of 2003, the Company sold a 31,000 square foot flex facility in Beaverton, Oregon with net proceeds of approximately \$2.4 million. The transaction was completed in December, 2003 at a loss of approximately \$601,000.

**Impact of Inflation:** Although inflation has not been significant in recent years, it is still a factor in our economy and the Company continues to seek ways to mitigate its impact. A substantial portion of the Company's leases require tenants to pay operating expenses, including real estate taxes, utilities, and insurance, as well as increases in common area expenses, partially reducing the Company's exposure to inflation. During 2005, the

Company experienced a significant inflationary increase in its utility costs impacting the Company's overall profit margin. The Company anticipates that this inflationary pressure will likely continue in 2006 with potential increases in utility costs as high as 10%.

**Concentration of Portfolio by Region:** Rental income, cost of operations and rental income less cost of operations, excluding depreciation and amortization or net operating income prior to depreciation and amortization (defined as "NOI" for purposes of the following tables) from continuing operations are summarized for the year ended December 31, 2005 by major geographic region below. The Company uses NOI and its components as a measurement of the performance of its commercial real estate. Management believes that these financial measures provide them as well as the investor the most consistent measurement on a comparative basis of the performance of the commercial real estate and its contribution to the value of the Company. Depreciation and amortization have been excluded from these financial measures as they are generally not used in determining the value of commercial real estate by management or the investment community. Depreciation and amortization are generally not used in determining value as they consider the historical costs of an asset compared to its current value; therefore, to understand the effect of the assets' historical cost on the Company's results, investors should look at GAAP financial measures, such as total operating costs including depreciation and amortization. The Company's calculation of NOI may not be comparable to those of other companies and should not be used as an alternative to measures of performance calculated in accordance with generally accepted accounting principles. The table below reflects rental income, operating expenses and NOI from continuing operations for the year ended December 31, 2005 based on geographical concentration. The total of all regions is equal to the amount of rental income and cost of operations recorded by the Company in accordance with GAAP. We have also included the most comparable GAAP measure which includes total depreciation and amortization. The percent of totals by region reflects the actual contribution to rental income, cost of operations and NOI during the period from properties included in continuing operations (*in thousands*):

Region	Weighted Square Footage	Percent of Total	Rental Income	Percent of Total	Cost of Operations	Percent of Total	NOI	Percent of Total
Southern California .....	3,706	21.4%	\$ 54,719	24.9%	\$ 14,997	22.8%	\$ 39,722	25.8%

	<u>1,560</u>	<u>\$29,550</u>	<u>13.4%</u>

(1) For leases expiring prior to December 31, 2006, annualized rental income represents income to be received under existing leases from December 31, 2005 through the date of expiration.

#### **Comparison of 2005 to 2004**

**Results of Operations:** Net income for the year ended December 31, 2005 was \$75.3 million compared to \$62.1 million for the year ended December 31, 2004. Net income allocable to common shareholders (net income less preferred stock distributions) for the year ended December 31, 2005 was \$32.3 million compared to \$29.1 million for the year ended December 31, 2004. Net income per common share on a diluted basis was \$1.47 for the year ended December 31, 2005 compared to \$1.33 for the year ended December 31, 2004 (based on weighted average diluted common shares outstanding of 22,018,000 and 21,960,000, respectively). The increase was due to the increase in rental income of \$8.7 million and interest income of \$4.5 million partially offset by an increase in cost of operations of \$2.7 million and depreciation of \$6.2 million.

The following table presents the operating results of the properties for the years ended December 31, 2005 and 2004 in addition to other income and expense items affecting income from continuing operations. The Company

breaks out Same Park operations to provide information regarding trends for properties the Company has held for the periods being compared (*in thousands, except per square foot data*):

	<u>Years Ended December 31,</u>		<u>Change</u>
	<u>2005</u>	<u>2004</u>	
Rental income:			
Same Park (17.1 million net rentable square feet) (1) .....	\$ 215,780	\$ 209,256	3.1%

Income before discontinued operations and minority interest .....	<u>\$ 75,798</u>	<u>\$ 71,195</u>	<u>6.5%</u>
Same Park gross margin(4) .....	70.1%	70.2%	(0.1)%
Same Park weighted average for period:			
Occupancy .....	92.2%	89.1%	3.5%
Realized rent per square foot(5) .....	\$ 13.73	\$ 13.76	(0.2)%

(1) See below for a definition of Same Park.

(2) Represents operating properties owned by the Company as of December 31, 2005 that are not included in Same Park.

(3) Net operating income (“NOI”) is an important measurement in the commercial real estate industry for determining the value of the real estate generating the NOI. See “Concentration of Portfolio by Region” above for more information on NOI. The Company’s calculation of NOI may not be comparable to those of other companies and should not be used as an alternative to measures of performance in accordance with GAAP.

(4) Same Park gross margin is computed by dividing Same Park NOI by Same Park rental income.

(5) Same Park realized rent per square foot represents the Same Park rental income earned per occupied square foot.

**Supplemental Property Data and Trends:** In order to evaluate the performance of the Company’s overall portfolio over two given years, management analyzes the operating performance of a consistent group of properties owned and operated throughout both those years. The Company refers to those properties as the Same Park facilities. For 2005 and 2004, the Same Park facilities constitute 17.1 million net rentable square feet, which includes all assets in continuing operations that the Company owned and operated from January 1, 2004 through December 31, 2005, representing approximately 98.8% of the weighted average square footage of the Company’s portfolio for 2005.

Rental income, cost of operations and rental income less cost of operations, excluding depreciation and amortization, or net operating income prior to depreciation and amortization (defined as “NOI” for purposes of the following tables) from continuing operations are summarized for the years ended December 31, 2005 and 2004 by major geographic region below. See “Concentration of Portfolio by Region” above for more information on NOI, including why the Company presents NOI and how the Company uses NOI. The Company’s calculation of NOI may not be comparable to those of other companies and should not be used as an alternative to measures of performance calculated in accordance with generally accepted accounting principles.

The following table summarizes the Same Park operating results by major geographic region for the years ended December 31, 2005 and 2004. In addition, the table reflects the comparative impact on the overall rental income, cost of operations and NOI from properties that have been acquired since January 1, 2004 and the impact of such is included in Other Facilities in the table below (*in thousands*):

Region	Rental Income December 31, 2005	Rental Income December 31, 2004	Increase (Decrease)	Cost of Operations December 31, 2005	Cost of Operations December 31, 2004	Increase (Decrease)	NOI December 31, 2005	NOI December 31, 2004	Increase (Decrease)
Southern California.....	\$ 54,099	\$ 51,796	4.4%	\$ 14,850	\$ 14,151	4.9%	\$ 39,249	\$ 37,645	4.3%

The following information provides information regarding the geographical regions in which the Company has operations:

#### *Southern California*

This region includes San Diego, Orange and Los Angeles Counties. Rental income and NOI for 2005 were slightly higher than 2004 due to an increase in weighted average occupancy and increasing rental rates. Weighted average occupancies have increased from 93.0% in 2004 to 94.8% in 2005. Realized rent per square foot has increased 2.4% from \$15.21 per square foot for 2004 to \$15.57 per square foot in 2005. The increases in this market are reflective of the general strength of the Southern California real estate market.

#### *Northern California*

This region includes Sacramento, South San Francisco, the East Bay and the Silicon Valley, a market that continues to be impacted by an over supply of commercial space due in part to failed technology companies. Rental income and NOI decreased from 2004 to 2005 primarily due to the loss of a large tenant in the San Jose portfolio. Weighted average occupancies outperformed the market, yet they have decreased from 95.0% in 2004 to 93.2% in 2005 primarily due to a bankruptcy and early termination of a 91,000 square foot tenant in the San Ramon portfolio. Realized rent per square foot has decreased 0.8% from \$13.68 per square foot in 2004 compared to \$13.57 per square foot in 2005.

#### *Southern Texas*

This region, which includes Austin, is one of the Company’s markets that has faced challenging market conditions with the Company’s operating results continuing to be impacted by the effects of sharply reduced market rental rates, higher vacancies and business failures. These effects on rental revenue were mitigated by

reduced operating costs, primarily in payroll. Weighted average occupancies increased from 83.2% in 2004 to 85.9% in 2005. Despite an increase in occupancy, realized rent per square foot decreased 3.5% from \$9.95 per square foot in 2004 to \$9.60 per square foot in 2005.

#### *Northern Texas*

This region includes the Dallas area. The increase in rental income and NOI are due primarily to increased occupancies and rental rates. This market continues to be impacted by high vacancy levels due to general availability of space, modest economic drivers and ongoing development. Weighted average occupancies have increased from 82.8% in 2004 to 85.9% in 2005. Realized rent per square foot has increased 6.8% from \$10.14 per square foot in 2004 to \$10.83 per square foot in 2005.

#### *Florida*

This region includes the Miami area. The Company's assets continue to outperform the market. Rental income and net operating income increases are a result of occupancy increases. Weighted average occupancies have increased from 84.0% in 2004 to 92.9% in 2005. Realized rent per square foot decreased 1.6% from \$7.58 in 2004 to \$7.46 in 2005.

#### *Virginia*

This region includes all major Northern Virginia suburban submarkets surrounding the Washington D.C. metropolitan area. The Washington DC Metro market is considered one of the Company's strongest markets driven largely by increased government contracting and defense spending. In many situations the Company has been able to reduce tenant concessions and increase rental rates, yet the Company still has a number of leases executed prior to 2002, which was considered a high point in the market. This has and will continue to result in some rental rate roll downs in the Virginia submarket. The increase in revenue was offset by increasing operating expenses, primarily utilities, resulting in a slight increase in NOI. Weighted average occupancies have decreased from 96.5% in 2004 to 95.6% in 2005. Realized rent per square foot has increased 3.4% from \$17.54 per square foot in 2004 to \$18.13 per square foot in 2005.

#### *Maryland*

This region consists primarily of facilities in Prince Georges County and Montgomery County. Weighted average occupancies have increased from 91.2% in 2004 to 95.4% in 2005. Considered part of the Washington DC Metro market, Maryland is experiencing improving market conditions due primarily to higher levels of government contracting. Realized rent per square foot has decreased 5.3% from \$21.63 per square foot in 2004 to \$20.49 per square foot in 2005. The decrease in rental rates is a result of certain large tenants releasing at rates below expiring rental rates. The higher rental rates were tied to leases transacted during a high point in this commercial real estate market prior to 2002.

#### *Oregon*

This region consists primarily of two business parks in the Beaverton submarket of Portland. Oregon has been one of the markets hardest hit by the technology slowdown. In 2003 and 2004, the slowdown resulted in early lease terminations, low levels of tenant retention and significant declines in rental rates. During 2005, the market experienced higher levels of leasing activity, with rental rates declining significantly from in-place rents and higher leasing concessions. Weighted average occupancies have increased from 78.7% in 2004 to 84.7% in 2005. Realized rent per square foot has decreased 5.7% from \$17.11 per square foot in 2004 to \$16.13 per square foot in 2005.

**Facility Management Operations:** The Company's facility management operations account for a small portion of the Company's net income. During the year ended December 31, 2005, \$579,000 of revenue was recognized from facility management fees compared to \$624,000 for the year ended December 31, 2004.

**Cost of Operations:** Cost of operations, excluding discontinued operations, was \$65.8 million for the year ended December 31, 2005 compared to \$63.1 million for the year ended December 31, 2004. The increase is due

primarily to the growth in the square footage of the Company's portfolio of properties. Cost of operations as a percentage of rental income increased slightly from 29.9% in 2004 to 30.0% in 2005. Cost of operations for the year ended December 31, 2005 consisted mainly of the following items: property taxes (\$19.5 million); property maintenance (\$14.7 million); utilities (\$12.7 million); and direct payroll (\$10.4 million) as compared to cost of operations for the year ended December 31, 2004 which consisted of the following items: property taxes (\$19.2 million); property maintenance (\$14.2 million); utilities (\$11.3 million); and direct payroll (\$10.5 million).

**Depreciation and Amortization Expense:** Depreciation and amortization expense, excluding discontinued operations, was \$76.3 million for the year ended December 31, 2005 compared to \$70.1 million for the year ended December 31, 2004. The increase is primarily due to depreciation expense on capital put in place in 2005 and at the end of 2004.

**General and Administrative Expense:** General and administrative expense was \$5.8 million for the year ended December 31, 2005 compared to \$4.6 million for the year ended December 31, 2004. General and administrative expenses for the year ended December 31, 2005 consisted mainly of the following items: expenses which relate to the accounting, finance, and executive divisions of the Company, which primarily consist of payroll expenses (\$3.2 million); professional fees, including expenses related to outside accounting, tax, legal and investor services (\$1.0 million); expenses which relate to issuances and exercises of stock options and restricted stock (\$572,000); and other various expenses. General and administrative expenses for the year ended December 31, 2004 consisted mainly of the following items: expenses which relate to the accounting, finance, and executive divisions of the Company, which primarily consist of payroll expenses (\$2.4 million); professional fees, including expenses related to Sarbanes Oxley Section 404 ("SOX 404") Compliance, outside accounting, tax, legal and investor services (\$1.3 million); expenses which relate to issuances and exercises of stock options and restricted stock (\$93,000); and other various expenses. During 2004, the Company incurred approximately \$600,000 related to its efforts to ensure compliance with SOX 404. While management experienced the ongoing costs of ensuring compliance with SOX 404 during 2005, the amount has decreased substantially as a significant portion of the work that was previously performed by third parties was performed by company employees. The increase in payroll expenses was due to higher levels of salary and related costs resulting from the changes to the Company's senior management team.

**Interest and Other Income:** Interest and other income reflects earnings on cash balances and dividends on marketable securities in addition to miscellaneous income items. Interest and other income was \$4.9 for the year ended December 31, 2005 compared to \$406,000 for the year ended December 31, 2004. Interest and other income for the year ended December 31, 2005 primarily related to interest earned on cash balances which generally earned approximately 3.4% interest compared to less than 2% in 2004. Additionally, based on the preferred equity activity and property dispositions during 2005, the Company's average cash on hand of \$95.9 million was significantly more than the average cash on hand during 2004 of \$22.7 million.

**Interest Expense:** Interest expense was \$1.3 million for the year ended December 31, 2005 compared to \$3.1 million for the year ended December 31, 2004. The decrease is attributable to the payoff of the line of credit, a mortgage note payable and an affiliate loan in 2004. No interest expense was capitalized as part of building costs associated with properties under development during the years ended December 31, 2005 and 2004.

**Gain on Disposition of Real Estate:** Included in income from discontinued operations are gains on dispositions of real estate for the year ended December 31, 2005 of \$18.1 million compared to \$15.5 million for the year ended December 31, 2004. In 2005, the Company disposed of eight properties, one in Oregon and seven in Miami, as well as, three parcels of land in Oregon and a small parcel of land in Miami. The property in Oregon generated a gain of \$12.5 million and with the remaining properties and land providing a net gain of approximately \$5.6 million. During the year ended December 31, 2004, the Company disposed of six properties, two in Maryland, two in Miami, one in Texas and one in Oregon. The two properties in Maryland generated a gain of \$15.2 million with the remaining four properties providing a net gain of approximately \$300,000.

**Minority Interest in Income:** Minority interest in income reflects the income allocable to equity interests in the Operating Partnership that are not owned by the Company. Minority interest in income was \$21.5 million (\$10.7 million allocated to preferred unitholders and \$10.9 million allocated to common unitholders) for the year

ended December 31, 2005 compared to \$30.0 million (\$20.2 million allocated to preferred unitholders and \$9.8 million allocated to common unitholders) for the year ended December 31, 2004. The decrease in minority interest in income is due primarily to the redemptions of preferred operating partnership units during 2004.

### Comparison of 2004 to 2003

**Results of Operations:** Net income for the year ended December 31, 2004 was \$62.1 million compared to \$49.1 million for the year ended December 31, 2003. Net income allocable to common shareholders (net income less preferred stock distributions) for the year ended December 31, 2004 was \$29.1 million compared to \$33.3 million for the year ended December 31, 2003. Net income per common share on a diluted basis was \$1.33 for the year ended December 31, 2004 compared to \$1.54 for the year ended December 31, 2003 (based on weighted average diluted common shares outstanding of 21,960,000 and 21,565,000, respectively). The decrease was due primarily to the increase in preferred equity distributions of \$17.2 million partially offset by the increase of \$12.6 million in gain on disposition of real estate.

The Company's property operations account for almost all of the net operating income earned by the Company. The following table presents the operating results of the properties for the years ended December 31, 2004 and 2003 in addition to other income and expense items affecting income from continuing operations. The Company breaks out Same Park operations to provide information regarding trends for properties the Company has held for the periods being compared (*in thousands, except per square foot data*):

	<u>Years Ended December 31,</u>		<u>Change</u>
	<u>2004</u>	<u>2003</u>

(1) See below for a definition of Same Park.

(2) Represents operating properties owned by the Company as of December 31, 2004 that are not included in Same Park.

- (3) Net operating income (“NOI”) is an important measurement in the commercial real estate industry for determining the value of the real estate generating the NOI. See “Concentration of Portfolio by Region” above for more information on NOI. The Company’s calculation of NOI may not be comparable to those of other companies and should not be used as an alternative to measures of performance in accordance with GAAP.
- (4) Same Park gross margin is computed by dividing Same Park NOI by Same Park rental income.
- (5) Same Park realized rent per square foot represents the Same Park rental income earned per occupied square foot.

**Supplemental Property Data and Trends:** In order to evaluate the performance of the Company’s overall portfolio over two given years, management analyzes the operating performance of a consistent group of properties owned and operated throughout both those years. The Company refers to those properties as the Same Park facilities. For 2004 and 2003, the Same Park facilities constitute 13.2 million net rentable square feet, which includes all assets in continuing operations that the Company owned and operated from January 1, 2003 through December 31, 2004, representing approximately 76.2% of the weighted average square footage of the Company’s portfolio for 2004.

Rental income, cost of operations and rental income less cost of operations, excluding depreciation and amortization, or net operating income prior to depreciation and amortization (defined as “NOI” for purposes of the following tables) from continuing operations are summarized for the years ended December 31, 2004 and 2003 by major geographic region below. See “Concentration of Portfolio by Region” above for more information on NOI, including why the Company presents NOI and how the Company uses NOI. The Company’s calculation of NOI may not be comparable to those of other companies and should not be used as an alternative to measures of performance calculated in accordance with generally accepted accounting principles.

The following table summarizes the Same Park operating results by major geographic region for the years ended December 31, 2004 and 2003. In addition, the table reflects the comparative impact on the overall rental income, cost of operations and NOI from properties that have been acquired since January 1, 2003 and the impact of such is included in Other Facilities in the table below (in thousands):

Region	Rental Income December 31, 2004	Rental Income December 31, 2003	Increase (Decrease)	Cost of Operations December 31, 2004	Cost of Operations December 31, 2003	Increase (Decrease)	NOI December 31, 2004	NOI December 31, 2003	Increase (Decrease)

The following information provides information regarding the geographical regions in which the Company has operations:

*Southern California*

This region includes San Diego, Orange and Los Angeles Counties. Rental income and NOI for 2004 were slightly lower than 2003 due to a reduction in weighted average occupancy and greater leasing concessions associated with the properties that were acquired in 2003. Weighted average occupancies decreased from 97.3% in 2003 to 95.9% in 2004. Realized rent per square foot increased 1.2% from \$14.20 per square foot for 2003 to

\$14.37 per square foot in 2004. The increase is due primarily to the inclusion of the acquisition properties for all of 2004.

#### *Northern California*

This region includes Sacramento, South San Francisco, the East Bay and the Silicon Valley, a market that has been devastated by the technology slump. Rental income and NOI decreased from 2003 to 2004 primarily due to a restructuring of a lease in the San Jose portfolio. Weighted average occupancies outperformed the market, yet they decreased from 96.0% in 2003 to 95.0% in 2004. Realized rent per square foot decreased 5.0% from \$14.37 per square foot for 2003 compared to \$13.65 per square foot in 2004.

#### *Southern Texas*

This region, which includes Austin, is considered one of the Company's challenged markets, and the Company's operating results continue to the effects of sharply reduced market rental rates, higher vacancies and business failures. Weighted average occupancies decreased from 91.8% in 2003 to 83.2% in 2004. Realized rent per square foot decreased 12.6% from \$11.44 per square foot in 2003 to \$10.00 per square foot in 2004.

#### *Northern Texas*

This region includes the Dallas area. The significant reduction in rental income and NOI are primarily due to reduced rents, increased leasing concessions and the loss of certain tenants to bankruptcy or downsizing. Weighted average occupancies decreased from 93.7% in 2003 to 82.7% in 2004. Realized rent per square foot decreased 8.9% from \$11.17 per square foot in 2003 to \$10.18 per square foot in 2004.

#### *Virginia*

This region includes all major Northern Virginia suburban submarkets surrounding the Washington D.C. metropolitan area. The Washington DC Metro market is considered one of the Company's strongest markets, which is indicated by the significant increase in rental income and NOI. The Company's properties in this market have successfully increased rental rates, reduced leasing concessions, and increased occupancy. Weighted average occupancies increased from 94.7% in 2003 to 96.5% in 2004. Realized rent per square foot increased 2.4% from \$17.13 per square foot in 2003 to \$17.54 per square foot in 2004.

#### *Maryland*

This region consists primarily of facilities in Prince Georges County and Montgomery County. While these markets have been relatively stable, weighted average occupancies have increased from 90.4% in 2003 to 91.2% in 2004. Considered part of the Washington DC Metro market, Maryland, like Virginia, has experienced significant increase in rental income and NOI, without proportionate increase in operating expenses. This market has also increased rental rates, reduced concessions, and increased occupancy. Realized rent per square foot increased 5.3% from \$20.49 per square foot in 2003 to \$21.58 per square foot in 2004.

#### *Oregon*

This region consists primarily of two business parks in the Beaverton submarket of Portland. Oregon has been one of the markets hardest hit by the technology slowdown. The full effect of this slowdown began to take effect in 2004 with lease terminations and expirations resulting in significant declines in rental revenue. Weighted average occupancies decreased from 80.3% in 2003 to 78.7% in 2004. Realized rent per square foot increased 6.6% from \$16.32 per square foot in 2003 to \$17.39 per square foot in 2004.

**Facility Management Operations:** The Company's facility management operations account for a small portion of the Company's net income. During the year ended December 31, 2004, \$624,000 of revenue was recognized from facility management fees compared to \$742,000 for the year ended December 31, 2003.

**Cost of Operations:** Cost of operations, excluding discontinued operations, was \$63.1 million for the year ended December 31, 2004 compared to \$51.6 million for the year ended December 31, 2003. The increase is due

primarily to the growth in the square footage of the Company's portfolio of properties. Cost of operations as a percentage of rental income increased from 27.7% in 2003 to 29.9% in 2004. Cost of operations for the year ended December 31, 2004 consisted mainly of the following items: property taxes (\$19.2 million); property maintenance (\$14.2 million); utilities (\$11.3 million); and direct payroll (\$10.5 million) as compared to cost of operations for the year ended December 31, 2003 which consisted of the following items: property taxes (\$15.5 million); property maintenance (\$12.2 million); utilities (\$8.7 million); and direct payroll (\$8.3 million).

***Depreciation and Amortization Expense:*** Depreciation and amortization expense was \$70.1 million for the year ended December 31, 2004 compared to \$56.3 million for the year ended December 31, 2003. The increase is primarily due to depreciation expense on real estate facilities acquired in 2004 and at the end of 2003.

***General and Administrative Expense:*** General and administrative expense was \$4.6 million for the year ended December 31, 2004 compared to \$4.7 million for the year ended December 31, 2003. General and administrative expenses for the year ended December 31, 2004 consisted mainly of the following items: expenses which relate to the accounting, finance, and executive divisions of the Company, which primarily consist of payroll expenses (\$2.4 million); professional fees, including expenses related to Sarbanes Oxley Section 404 ("SOX 404") Compliance, outside accounting, tax, legal and investor services (\$1.3 million); expenses which relate to issuances and exercises of stock options and restricted stock (\$93,000); and other various expenses. General and administrative expenses for the year ended December 31, 2003 consisted mainly of the following items: expenses which relate to the accounting, finance, and executive divisions of the Company, which primarily consist of payroll expenses (\$1.9 million); internal acquisitions costs (\$585,000); professional fees, including expenses related to outside accounting, tax, legal and investor services (\$773,000); expenses which relate to issuances and exercises of stock options and restricted stock (\$852,000); and other various expenses. During 2004, the Company incurred approximately \$600,000 related to its efforts to ensure compliance with SOX 404. The increase in payroll expenses was a result of costs resulting from the changes to the Company's senior management team.

***Interest and Other Income:*** Interest and other income reflects earnings on cash balances and dividends on marketable securities in addition to miscellaneous income items. Interest and other income was \$406,000 for the year ended December 31, 2004 compared to \$1.1 million for the year ended December 31, 2003. Interest and other income for the year ended December 31, 2004 primarily related to interest earned on cash balances which generally earned less than 2% interest. Based on the preferred equity activity during 2004, the Company's cash on hand varied significantly throughout the year although it was significantly less than the average cash on hand during 2003 as the Company purchased approximately \$70.0 million of assets in the second half of 2003 with retained cash. In addition to interest on cash on hand, during 2003 interest and other income also included approximately \$400,000 of construction management fees.

***Interest Expense:*** Interest expense was \$3.1 million for the year ended December 31, 2004 compared to \$4.0 million for the year ended December 31, 2003. The decrease is primarily attributable to the pay down on the line of credit, notes payable and declining mortgage balances as a result of the preferred equity issued in 2004. No interest expense was capitalized as part of building costs associated with properties under development during the years ended December 31, 2004 and 2003.

***Equity in Income of Liquidated Joint Venture:*** Equity in income of liquidated joint venture reflects the Company's share of net income from its joint venture. There was no equity in income of the liquidated joint venture for the year ended December 31, 2004 compared to \$2.3 million for the same period in 2003. The decrease is due to the joint venture being liquidated in 2003.

***Gain on Disposition of Real Estate:*** Included in income from discontinued operations are gains on dispositions of real estate for the year ended December 31, 2004 of \$15.5 million compared to \$2.9 million for the year ended December 31, 2003. In 2004, the Company disposed of six properties, two in Maryland, two in Miami, one in Texas and one in Oregon. The two properties in Maryland generated a gain of \$15.2 million with the remaining four properties providing a net gain of approximately \$300,000. During the year ended December 31, 2003 the Company disposed of three properties, one in Lakewood and two in Nashville for a gain of \$3.2 million and \$300,000, respectively. A property in Beaverton was sold during the fourth quarter of 2003, resulting in a loss of approximately \$601,000.

**Impairment Charge:** There was no impairment charge recognized during the year ended December 31, 2004. Included in income from discontinued operations is an impairment charge of \$5.9 million recognized during the year ended December 31, 2003 specific to five office and flex buildings and a 4.5 acre parcel of land in Beaverton, Oregon.

**Minority Interest in Income:** Minority interest in income reflects the income allocable to equity interests in the Operating Partnership that are not owned by the Company. Minority interest in income was \$30.0 million (\$20.2 million allocated to preferred unitholders and \$9.8 million allocated to common unitholders) for the year ended December 31, 2004 compared to \$30.6 million (\$19.2 million allocated to preferred unitholders and \$11.3 million allocated to common unitholders) for the year ended December 31, 2003. The decrease in minority interest in income is due primarily to the redemptions of preferred operating partnership units during 2004.

## **Liquidity and Capital Resources**

Net cash provided by operating activities for the years ended December 31, 2005 and 2004 was \$149.4 million and \$152.0 million, respectively. Management believes that the Company's internally generated net cash provided by operating activities will continue to be sufficient to enable it to meet its operating expenses, capital improvements and debt service requirements and to maintain the current level of distributions to shareholders in addition to providing additional retained cash for future growth, debt repayment, and stock repurchases.

Net cash provided by investing activities was \$24.4 million for the year ended December 31, 2005 compared to cash used in investing activities of \$26.1 million for the year ended December 31, 2004. The change between years was \$50.5 million or 193.4% and was primarily due to proceeds from the disposition of real estate facilities being \$36.5 million higher in 2005 than 2004. Cash paid for acquisitions for the year ended December 31, 2005 was \$20.1 million compared to \$22.3 million in the prior year. During the years ended December 31, 2005 and 2004 the Company used \$40.3 million and \$52.1 million for capital improvements to real estate facilities, respectively. The decrease of \$11.7 million or 22.5% resulted from decreased transaction costs.

Net cash used in financing activities was \$13.1 million and \$92.0 million for the year ended December 31, 2005 and 2004. In 2005, the Company redeemed or repurchased \$26.5 million of preferred equity and common stock while it received \$99.1 million from preferred equity offerings compared to 2004, in which the Company repaid or refinanced \$576.9 million of debt and preferred equity while it received \$560.7 million from preferred equity offerings and short term borrowings. As a result of the 2005 transactions, the Company increased its preferred equity outstanding to 33.5% of its market capitalization at December 31, 2005 from 32.5% at December 31, 2004. Additionally, the Company paid preferred equity holders \$53.4 million in distributions for the year ended December 31, 2005 compared to \$48.8 million for the year ended December 31, 2004.

The Company's capital structure is characterized by a low level of leverage. As of December 31, 2005, the Company had three fixed rate mortgage notes payable totaling \$25.9 million, which represented approximately 1.2% of its total capitalization (based on book value, including minority interest and debt). The weighted average interest rate for the mortgage notes is approximately 6.6% per annum. The Company had approximately 4.2% of its properties, based on net book value, encumbered at December 31, 2005.

During 2005, the Company issued an aggregate of \$102.5 million of preferred equity with an average rate of 7.19%. Proceeds from the various offerings were used to redeem higher rate preferred equity of \$12.0 million at a rate of 8.875%. As of December 31, 2005, the Company had \$200.4 million of cash on its balance sheet. The significant cash balance, which has been accumulated as a result of continuing operations, asset sales and preferred equity offerings, will be used to fund \$118.9 million of potential 2006 preferred equity redemptions, asset acquisitions and general corporate purposes.

In August of 2005, the Company modified the term of its line of credit (the "Credit Facility") with Wells Fargo Bank. The Credit Facility has a borrowing limit of \$100.0 million and matures on August 1, 2008. Interest on outstanding borrowings is payable monthly. At the option of the Company, the rate of interest charged is equal to (i) the prime rate or (ii) a rate ranging from the London Interbank Offered Rate ("LIBOR") plus 0.50% to LIBOR plus 1.20% depending on the Company's credit ratings and coverage ratios, as defined (currently LIBOR plus 0.65%). In addition, the Company is required to pay an annual commitment fee ranging from 0.15% to 0.30%

of the borrowing limit (currently 0.20%). In connection with the modification of the Credit Facility, the Company paid a fee of \$450,000, which will be amortized over the life of the Credit Facility. The Company had no balance outstanding on its Credit Facility at December 31, 2005 and 2004. The Company repaid in full the \$95.0 million outstanding on its line of credit in January, 2004, and subsequently borrowed \$138.0 million on its line of credit in 2004 which was repaid in full prior to December 31, 2004.

As of December 31, 2003, the Company had \$100.0 million in short-term borrowings from PSI. The note bore interest at 1.4% and was due on March 9, 2004. The Company repaid the note in full during the first quarter of 2004.

In February 2002, the Company entered into a seven year \$50.0 million term loan agreement with Fleet National Bank. The interest on the note was at LIBOR plus 1.45% and it had an original maturity of February 20, 2009. The Company paid a one-time fee of 0.35% or \$175,000 for the facility. In July 2002, the Company entered into an interest rate swap transaction which had the effect of fixing the rate on the term loan through July 2004 at 4.46% per annum. In February 2004, the Company repaid in full the \$50.0 million outstanding on the term loan.

The Company used its short-term borrowing capacity from time to time to complete acquisitions totaling approximately \$282.4 million in 2003. The Company borrowed \$95.0 million from its line of credit and \$100.0 million from PSI. The remaining balance was funded with cash from operations.

During 2004, the Company issued an aggregate of \$437.8 million of preferred equity with an average rate of 7.23%. Proceeds from the various offerings were used to redeem higher rate preferred equity aggregating \$185.6 million with an average rate of 8.93%. In addition, proceeds were used to provide permanent financing for the Company's acquisitions made in 2003 and 2004 by enabling the Company to repay, in full, the balances outstanding on the Company's note with PSI, the Credit Facility and the term loan.

During May 2003 and September 2003, the Company repurchased 7,300 and 78,300 depository shares, each representing 1/1,000 of a share of Series A preferred stock at \$26.00 and \$25.65 per depository share, for \$190,000 and \$2.0 million, respectively. The stated value of the stock was \$25 per depository share. The premium and original issuance costs were recorded as an additional distribution to preferred shareholders. The aggregate effect was a reduction of \$127,000 of net income and funds from operations allocable to common shareholders and unitholders.

The Company's funding strategy has been to use permanent capital, including common and preferred stock, and internally generated retained cash flows. In addition, the Company may sell properties that no longer meet its investment criteria. The Company may finance acquisitions on a temporary basis with borrowings from its Credit Facility. The Company targets a ratio of Funds from Operations ("FFO") to combined fixed charges and preferred distributions of 3.0 to 1.0. Fixed charges include interest expense and capitalized interest. Preferred distributions include amounts paid to preferred shareholders and preferred Operating Partnership unitholders. As of the year ended December 31, 2005, the FFO to fixed charges and preferred distributions coverage ratio was 2.9 to 1.0, excluding the effects of Emerging Issues Task Force ("EITF") Topic D-42.

***Non-GAAP Supplemental Disclosure Measure: Funds from Operations:*** Management believes that Funds From Operations ("FFO") is a useful supplemental measure of the Company's operating performance. The Company computes FFO in accordance with the White Paper on FFO approved by the Board of Governors of the National Association of Real Estate Investment Trusts ("NAREIT"). The White Paper defines FFO as net income, computed in accordance with GAAP, before depreciation, amortization, minority interest in income, and extraordinary items. Management believes that FFO provides a useful measure of the Company's operating performance and when compared year over year, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, development activities, general and administrative expenses and interest costs, providing a perspective not immediately apparent from net income.

FFO should be analyzed in conjunction with net income. However, FFO should not be viewed as a substitute for net income as a measure of operating performance or liquidity as it does not reflect depreciation and amortization costs or the level of capital expenditure and leasing costs necessary to maintain the operating performance of the Company's properties, which are significant economic costs and could materially impact the Company's results from operations.

Management believes FFO provides useful information to the investment community about the Company's operating performance when compared to the performance of other real estate companies as FFO is generally recognized as the industry standard for reporting operations of REITs. Other REITs may use different methods for calculating FFO and, accordingly, our FFO may not be comparable to other real estate companies.

FFO for the Company is computed as follows (in thousands):

	Years Ended December 31,				
	2005	2004	2003	2002	2001
Net income allocable to common shareholders . . . . .	\$ 32,283	\$ 29,123	\$ 33,312	\$ 42,018	\$ 41,016
Gain on sale of marketable and other securities . .	—	—	(2,043)	(41)	(8)
Gain on disposition of real estate . . . . .	(18,109)	(15,462)	(2,897)	(9,023)	—
Equity income from sale of joint venture properties . . . . .	—	—	(1,376)	(861)	—
Depreciation and amortization . . . . .	77,420	73,793	59,107	58,144	41,067
Depreciation from joint venture . . . . .	—	—	—	63	15
Minority interest in income — common units . . . . .	10,869	9,760	11,345	14,243	13,382
Consolidated FFO allocable to common shareholders and minority interests . . . . .	102,463	97,214	97,448	104,543	95,472
FFO allocated to minority interests — common units	(25,810)	(24,401)	(24,657)	(26,291)	(23,018)
FFO allocated to common shareholders . . . . .	<u>\$ 76,653</u>	<u>\$ 72,813</u>	<u>\$ 72,791</u>	<u>\$ 78,252</u>	<u>\$ 72,454</u>

FFO allocated to common shareholders and minority interests for the year ended December 31, 2005 increased \$5.2 million over the year ended December 31, 2004. FFO for the years ended December 31, 2005 and 2004 included non-cash distributions of \$301,000 and \$5.0 million, respectively, related to the application of EITF Topic D-42 and the redemption of preferred equity. Excluding these non-cash adjustments, the slight increase in FFO was a result of increased income from operations.

**Capital Expenditures:** During the years ended December 31, 2005, 2004 and 2003, the Company incurred approximately \$35.8 million, \$43.6 million and \$23.0 million, respectively, in recurring capital expenditures or \$2.01, \$2.42 and \$1.61 per weighted average square foot, respectively. The Company defines recurring capital expenditures as those necessary to maintain and operate its commercial real estate at its current economic value. The Company expects the higher levels of transactions to continue into 2006 as a result of competition in difficult markets. The following depicts actual capital expenditures for the stated periods: (*in thousands*)

	Year Ended December 31, 2005	Year Ended December 31, 2004	Year Ended December 31, 2003
Recurring capital expenditures . . . . .	\$ 35,821	\$ 43,614	\$ 22,954
First generation tenant improvements and leasing commissions on developed projects . . . . .	—	—	838
Property renovations and other capital expenditures	4,519	8,455	15,984
Total capital expenditures . . . . .	<u>\$ 40,340</u>	<u>\$ 52,069</u>	<u>\$ 39,776</u>

**Stock Repurchase:** The Company's Board of Directors has authorized the repurchase, from time to time, of up to 4.5 million shares of the Company's common stock on the open market or in privately negotiated transactions. During the year ended December 31, 2005, the Company repurchased 361,400 shares of common stock at a cost of approximately \$16.6 million. No shares were repurchased in 2004. Since inception through December 31, 2005, the Company has repurchased an aggregate of 3.0 million shares of common stock at an aggregate cost of approximately \$86.5 million (average cost of \$29.00 per share).

**Redemption of Preferred Stock:** The Company did not repurchase any preferred stock in 2005.

**Distributions:** The Company has elected and intends to qualify as a REIT for federal income tax purposes. In order to maintain its status as a REIT, the Company must meet, among other tests, sources of income, share ownership and certain asset tests. As a REIT, the Company is not taxed on that portion of its taxable income that is distributed to its shareholders provided that at least 90% of its taxable income is distributed to its shareholders prior to filing of its tax return.

**Related Party Transactions:** At December 31, 2005, PSI owned 25.1% of the outstanding shares of the Company's common stock and 25.3% of the outstanding common units of the operating partnership (100% of the common units not owned by us). Assuming conversion of its partnership units PSI would own 44.1% of the outstanding shares of the Company's common stock. Ronald L. Havner, Jr., the Company's chairman, is also the Chief Executive Officer, President and a Director of PSI. Harvey Lenkin is a Director of both the Company and PSI.

Pursuant to a cost sharing and administrative services agreement, the Company shares costs with PSI and affiliated entities for certain administrative services. These costs totaled \$335,000 in 2005 and are allocated among PSI and its affiliates in accordance with a methodology intended to fairly allocate those costs. In addition, the Company provides property management services for properties owned by PSI and its affiliates for a fee of 5% of the gross revenues of such properties in addition to reimbursement of direct costs. These management fee revenues recognized under management contracts with affiliated parties totaled approximately \$579,000 in 2005.

**Off-Balance Sheet Arrangements:** The Company does not have any off-balance sheet arrangements.

**Contractual Obligations:** The table below summarizes projected payments due under our contractual obligations as of December 31, 2005 (*in thousands*):

<u>Contractual Obligations</u>	<u>Payments Due by Period</u>				
	<u>Total</u>	<u>Less than 1 year</u>	<u>1 – 3 years</u>	<u>3 – 5 years</u>	<u>More than 5 years</u>
Mortgage notes payable (principal and interest) .....	\$ 33,465	\$ 2,277	\$ 8,393	\$ 7,372	\$ 15,423
Total .....	\$ 33,465	\$ 2,277	\$ 8,393	\$ 7,372	\$ 15,423

The Company is scheduled to pay cash dividends of approximately \$60.4 million per year on its preferred equity outstanding as of December 31, 2005. Dividends are paid when and if declared by the Company's Board of Directors and accumulate if not paid. Shares and units of preferred equity are redeemable by the Company in order to preserve its status as a REIT and are also redeemable five years after issuance.

#### **ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

To limit the Company's exposure to market risk, the Company principally finances its operations and growth with permanent equity capital consisting either of common stock or preferred equity. At December 31, 2005, the Company's debt as a percentage of shareholders' equity and minority interest (based on book values) was 1.9%.

The Company's market risk sensitive instruments include mortgage notes payable of \$25.9 million at December 31, 2005. All of the Company's mortgage notes payable bear interest at fixed rates. See Notes 2, 5, and 6 to Consolidated Financial Statements for the terms, valuations and approximate principal maturities of the Company's mortgage notes payable and the line of credit as of December 31, 2005. Based on borrowing rates currently available to the Company, combined with the amount of fixed rate debt outstanding, the difference between the carrying amount of debt and its fair value is insignificant.

#### **ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA**

The financial statements of the Company at December 31, 2005 and 2004 and for the years ended December 31, 2005, 2004 and 2003 and the report of Ernst & Young LLP, Independent Registered Public Accounting Firm, thereon and the related financial statement schedule, are included elsewhere herein. Reference is made to the Index to Consolidated Financial Statements and Schedules in Item 15.

**ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE**

Not Applicable.

**ITEM 9A. CONTROLS AND PROCEDURES**

**Management's Evaluation of Disclosure Controls and Procedures**

The Company maintains disclosure controls and procedures as defined in SEC Rule 13a-15(e) that are designed to ensure that information required to be disclosed in its reports under the Securities Exchange Act of 1934 is processed, recorded, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by SEC Rule 13a-15(b), the Company carried out an evaluation, under the supervision and with the participation of management including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the disclosure controls and procedures as of December 31, 2005. Based on the foregoing, the Chief Executive Officer and Chief Financial Officer concluded, as of that time, that the Company's disclosure controls and procedures were effective at the reasonable assurance level.

There was no change in the Company's internal control over financial reporting that occurred during the three months ended December 31, 2005 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting. The Company may make changes in its internal control processes from time to time in the future.

**Management's Report on Internal Control over Financial Reporting**

Management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934. The Company's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

Management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2005 using the criteria set forth in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, management believes that, as of December 31, 2005, the Company's internal control over financial reporting was effective based on those criteria.

Management's assessment of the effectiveness of internal control over financial reporting as of December 31, 2005, has been audited by Ernst & Young LLP, the independent registered public accounting firm who also audited the Company's consolidated financial statements. Ernst & Young LLP's report on management's assessment of the Company's internal control over financial reporting appears below.

**ITEM 9B. OTHER INFORMATION**

None.

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of  
PS Business Parks, Inc.

We have audited management's assessment, included in the accompanying Management's Report on Internal Control over Financial Reporting, that PS Business Parks, Inc. (the Company) maintained effective internal control over financial reporting as of December 31, 2005, based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). PS Business Parks, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management's assessment that PS Business Parks, Inc. maintained effective internal control over financial reporting as of December 31, 2005, is fairly stated, in all material respects, based on the COSO criteria. Also, in our opinion, PS Business Parks, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2005, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of PS Business Parks, Inc. as of December 31, 2005 and 2004, and the related consolidated statements of income, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2005 of PS Business Parks, Inc. and our report dated March 3, 2006 expressed an unqualified opinion thereon.

## PART III

### ITEM 10. *DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT*

The information required by this item with respect to directors is hereby incorporated by reference to the material appearing in the Company's definitive proxy statement to be filed in connection with the annual shareholders' meeting to be held in 2006 (the "Proxy Statement") under the caption "Election of Directors — Nominees for Director."

Information required by this item with respect to executive officers is provided in Item 4A of this report. See "Executive Officers of the Registrant."

Information required by this item with respect to an audit committee financial expert and identification of the Audit Committee of the Board of Directors is hereby incorporated by reference to the material appearing in the Proxy Statement under the caption "Election of Directors — Directors and Committee Meetings."

Information required by this item with respect to a code of ethics is hereby incorporated by reference to the material appearing in the Proxy Statement under the caption "Election of Directors — Directors and Committee Meetings." We have adopted a code of ethics that applies to our principal executive officer, principal financial officer and principal accounting officer, which is filed as an exhibit to this Annual Report on Form 10-K and available on our website at [www.psbusinessparks.com](http://www.psbusinessparks.com). The information contained on the Company's website is not a part of, or incorporated by reference into, this Annual Report on Form 10-K. Any amendments to or waivers of the code of ethics granted to the Company's executive officers or the controller will be published promptly on our website or by other appropriate means in accordance with SEC rules.

### ITEM 11. *EXECUTIVE COMPENSATION*

The information required by this item is hereby incorporated by reference to the material appearing in the Proxy Statement under the captions "Compensation", "Compensation Committee Interlocks and Insider Participation," "Report of the Compensation Committee on Executive Compensation" and "Stock Price Performance Graph."

### ITEM 12. *SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT*

The information required by this item with respect to security ownership of certain beneficial owners and management is hereby incorporated by reference to the material appearing in the Proxy Statement under the captions "Election of Directors — Security Ownership of Certain Beneficial Owners" and "Security Ownership of Management."

The following table sets forth information as of December 31, 2005 on the Company's equity compensation plans:

<u>Plan Category</u>	<u>(a)</u> Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants, and Rights	<u>(b)</u> Weighted Average Exercise Price of Outstanding Options, Warrants, and Rights	<u>(c)</u> Number of Securities Remaining Available for Future Issuance under Equity Compensation Plans (Excluding Securities Reflected in Column (a))
Equity compensation plans approved by security holders . . . .	727,871	\$ 36.92	1,457,211
Equity compensation plans not approved by security holders . . . .	<u>—</u>	<u>\$ —</u>	<u>—</u>
Total . . . . .	<u>727,871*</u>	<u>\$ 36.92*</u>	<u>1,457,211*</u>

\* Amounts include restricted stock units

### **ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS**

The information required by this item is hereby incorporated by reference to the material appearing in the Proxy Statement under the caption “Compensation Committee Interlocks and Insider Participation — Certain Relationships and Related Transactions.”

### **ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES**

*Audit Fees:* Audit fees include fees generated by all services performed by Ernst & Young LLP to comply with generally accepted auditing standards or for services related to the audit and review of the Company’s financial statements. Audit fees billed (or expected to be billed) to the Company by Ernst & Young LLP for audit of the Company’s consolidated financial statements and internal control over financial reporting, review of the consolidated financial statements included in the Company’s quarterly reports on Form 10-Q and services in connection with the Company’s registration statements and securities offerings totaled \$322,000 for 2005 and \$468,000 for 2004.

*Audit-Related Fees:* During 2005 and 2004, Ernst & Young LLP did not bill the Company for audit related services

*Tax Fees:* Tax fees billed (or expected to be billed) to the Company by Ernst & Young LLP for tax compliance and consulting services totaled \$165,000 for 2005 and \$143,000 for 2004.

*All Other Fees:* During 2005 and 2004, Ernst & Young LLP did not bill the Company for any services other than audit and tax services.

The Audit Committee of the Company approves in advance all services performed by Ernst & Young LLP. The Audit Committee has delegated pre-approval authority to the Chairman of the Audit Committee provided that the Chairman shall report any pre-approval decisions to the Audit Committee at its next scheduled meeting.

## **PART IV**

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of  
PS Business Parks, Inc.

We have audited the accompanying consolidated balance sheets of PS Business Parks, Inc. as of December 31, 2005 and 2004, and the related consolidated statements of income, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2005. Our audits also included the financial statement schedule listed in the Index at Item 15(a). These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of PS Business Parks, Inc. at December 31, 2005 and 2004, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2005, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of PS Business Parks, Inc.'s internal control over financial reporting as of December 31, 2005, based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 3, 2006 expressed an unqualified opinion thereon.

**PS BUSINESS PARKS, INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**DECEMBER 31, 2005**

**1. Organization and description of business**

*Organization*

PS Business Parks, Inc. (“PSB”) was incorporated in the state of California in 1990. As of December 31, 2005, PSB owned approximately 75% of the common partnership units of PS Business Parks, L.P. (the “Operating Partnership” or “OP”). The remaining common partnership units were owned by Public Storage, Inc. (“PSI”). PSB, as the sole general partner of the Operating Partnership, has full, exclusive and complete responsibility and discretion in managing and controlling the Operating Partnership. PSB and the Operating Partnership are collectively referred to as the “Company.”

*Description of business*

The Company is a fully-integrated, self-advised and self-managed real estate investment trust (“REIT”) that acquires, develops, owns and operates commercial properties, primarily multi-tenant flex, office and industrial space. As of December 31, 2005, the Company owned and operated approximately 17.6 million net rentable square feet of commercial space located in eight states including approximately 43,000 square feet of property held for disposition. The Company also manages approximately 1.2 million net rentable square feet on behalf of PSI and its affiliated entities.

**2. Summary of significant accounting policies**

*Basis of presentation*

The accompanying consolidated financial statements include the accounts of PSB and the Operating Partnership. All significant inter-company balances and transactions have been eliminated in the consolidated financial statements.

*Use of estimates*

The preparation of the consolidated financial statements in conformity with U.S. generally accepted accounting principles (“U.S. GAAP”) requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from estimates.

*Allowance for doubtful accounts*

We monitor the collectibility of our receivable balances including the deferred rent receivable on an on-going basis. Based on these reviews, we maintain an allowance for doubtful accounts for estimated losses resulting from the possible inability of our tenants to make required rent payments to us. A provision for doubtful accounts is recorded during each period. The allowance for doubtful accounts, which represents the cumulative allowances less write-offs of uncollectible rent, is netted against tenant and other receivables on our consolidated balance sheets. Tenant receivables are net of an allowance for uncollectible accounts totaling \$300,000 and \$550,000 at December 31, 2005 and 2004, respectively.

*Financial instruments*

The methods and assumptions used to estimate the fair value of financial instruments are described below. The Company has estimated the fair value of financial instruments using available market information and appropriate valuation methodologies. Considerable judgment is required in interpreting market data to develop estimates of market value. Accordingly, estimated fair values are not necessarily indicative of the amounts that could be realized in current market exchanges.

In June 1998, the Financial Accounting Standards Board (“FASB”) issued Statement of Financial Accounting Standards (“SFAS”) No. 133 “Accounting for Derivative Instruments and Hedging Activities,” (SFAS No. 133, as amended by SFAS No. 138). The Statement requires the Company to recognize all derivatives on the balance sheet at fair value. Derivatives that are not hedges must be adjusted to fair value and reflected as income or expense. If the derivative is a hedge, depending on the nature of the hedge, changes in the fair value of derivatives are either offset against the change in fair value of the hedged assets, liabilities, or firm commitments through earnings or recognized in other comprehensive income until the hedged item is recognized in earnings. The ineffective portion of a derivative’s change in fair value is immediately recognized in earnings.

In July 2002, the Operating Partnership entered into an interest rate swap agreement, which was accounted for as a cash flow hedge, in order to reduce the impact of changes in interest rates on a portion of its floating rate debt. The agreement, which covered \$50.0 million of debt through July 2004, effectively changed the interest rate exposure from floating rate to a fixed rate of 4.46%. Market gains and losses on the value of the swap were deferred and included in income over the life of the swap or related debt. The differences paid on the interest rate swap of approximately \$0, \$557,000 and \$904,000 for the years ended December 31, 2005, 2004 and 2003, respectively, were recorded in interest expense as incurred.

Net interest differentials paid or received related to these contracts were accrued as incurred or earned. There was no unrealized loss related to the interest rate swap included in other comprehensive income as of December 31, 2005 or 2004 and the swap agreement was eliminated in 2004.

The Company considers all highly liquid investments with an original maturity of three months or less at the date of purchase to be cash equivalents. Due to the short period to maturity of the Company’s cash and cash equivalents, accounts receivable, other assets and accrued and other liabilities, the carrying values as presented on the consolidated balance sheets are reasonable estimates of fair value. Based on borrowing rates currently available to the Company, the carrying amount of debt approximates fair value.

Financial assets that are exposed to credit risk consist primarily of cash and cash equivalents and receivables. Cash and cash equivalents, which consist primarily of short-term investments, including commercial paper, are only invested in entities with an investment grade rating. Receivables are comprised of balances due from a large number of customers. Balances that the Company expects to become uncollectable are reserved for or written off.

#### *Real estate facilities*

Real estate facilities are recorded at cost. Costs related to the renovation or improvement of the properties are capitalized. Expenditures for repairs and maintenance are expensed as incurred. Expenditures that are expected to benefit a period greater than 24 months and exceed \$2,000 are capitalized and depreciated over the estimated useful life. Buildings and equipment are depreciated on the straight-line method over the estimated useful lives, which are generally 30 and 5 years, respectively. Leasing costs in excess of \$1,000 for leases with terms greater than two years are capitalized and depreciated/amortized over their estimated useful lives. Leasing costs for leases of less than two years or less than \$1,000 are expensed as incurred.

Interest cost and property taxes incurred during the period of construction of real estate facilities are capitalized. The Company did not capitalize any interest expense in 2005, 2004 or 2003. The Company capitalized \$0, \$46,000 and \$33,000 of property taxes during the years ended December 31, 2005, 2004 and 2003, respectively.

#### *Properties Held for Disposition*

The Company accounts for properties held for disposition in accordance with SFAS No. 144, “Accounting for the Impairment or Disposal of Long-Lived Assets”. An asset is classified as an asset held for disposition when it meets the requirements of SFAS No. 144, which include, among other criteria, the approval of the sale of the asset, the asset has been marketed for sale and the Company expects that the sale will likely occur within the next twelve months. Upon classification of an asset as held for disposition, the net book value of the asset is included on the balance sheet as properties held for disposition, depreciation of the asset is ceased and the operating results of the asset are included in discontinued operations.

### *Investment in joint venture*

In October 2001, the Company formed a joint venture with an unaffiliated investor to own and operate an industrial park consisting of 14 buildings in the City of Industry submarket of Los Angeles County. The park, consisting of 294,000 square feet of industrial space, was acquired by the Company in December 2000 at a cost of approximately \$14.4 million. The property was contributed to the joint venture at its original cost. The partnership was capitalized with equity capital consisting of 25% from the Company and 75% from the unaffiliated investor in addition to a mortgage note payable.

During 2002, the joint venture sold eight of the buildings totaling approximately 170,000 square feet. The Company recognized gains of approximately \$861,000 on the disposition of these eight buildings. In addition, the Company's interest in cash distributions from the joint venture increased from 25% to 50% as a result of meeting its performance measures. Therefore, the Company recognized additional income of \$1.0 million in 2002. The gains and the additional income are included in equity in income of joint venture. As of December 31, 2002, the joint venture held six buildings totaling 124,000 square feet. During January, 2003, five of the remaining six buildings were sold and the Company recognized gains of approximately \$1.1 million as a result of these sales and additional income of approximately \$700,000. The remaining building, with approximately 29,000 square feet was sold in April, 2003. The Company recognized a gain of approximately \$300,000 and additional income of approximately \$200,000 during the second quarter of 2003.

The Company's investment was accounted for under the equity method in accordance with Accounting Principles Board ("APB") 18, "Equity Method of Accounting for Investments." In accordance with APB 18, the Company's share of the debt was netted against its share of the assets in determining the investment in the joint venture and was not included in the Company's total liabilities. The accounting policies of the joint venture were consistent with the Company's accounting policies.

Summarized below is financial data for the joint venture for the year ended December 31, 2003 (*in thousands*):

Operating revenues.....	\$ 20
Gain on sale of real estate .....	<u>3,668</u>
Total revenues .....	<u>3,688</u>
Cost of operations .....	48
Interest and other expenses.....	<u>4</u>
Total expenses .....	<u>52</u>
Net income .....	<u>\$ 3,636</u>

As of December 31, 2003, the joint venture had sold all of its properties, extinguished all of its debt, and distributed any remaining cash to the joint venture partners.

### *Intangible assets*

Intangible assets consist of property management contracts for properties managed, but not owned, by the Company. The intangible assets were being amortized over seven years. Intangible assets were fully amortized at December 31, 2005 and 2004.

### *Evaluation of asset impairment*

The Company evaluates its assets used in operations by identifying indicators of impairment and by comparing the sum of the estimated undiscounted future cash flows for each asset to the asset's carrying value. When indicators of impairment are present and the sum of the undiscounted future cash flows is less than the carrying value of such asset, an impairment loss is recorded equal to the difference between the asset's current carrying value and its value based on discounting its estimated future cash flows. In addition, the Company evaluates its assets held for disposition for impairment. Assets held for disposition are reported at the lower of their carrying value or fair value, less cost of disposition. During 2003, the Company identified certain assets that were impaired and recognized an impairment loss of \$5.9 million.

### *Asset impairment due to casualty loss*

It is the Company's policy to record as a casualty loss or gain, in the period the casualty occurs, the differential between (a) the book value of assets destroyed and (b) any insurance proceeds that we expect to receive in accordance with our insurance contracts. Potential proceeds from insurance that are subject to any uncertainties, such as interpretation of deductible provisions of the governing agreements, the estimation of costs of restoration, or other such items, are treated as a contingent proceeds in accordance with SFAS No. 5, and not recorded until the uncertainties are satisfied.

For the year ended December 31, 2005, several of our real estate assets located in Florida were damaged as a result of a series of hurricanes. We have estimated that the costs to restore these facilities will approximate \$2.3 million. We have third-party insurance, subject to certain deductibles, that covers restoration of physical damage and the loss of income due to the physical damage incurred. We expect our insurers to pay approximately \$1.6 million of the physical damage, and the net book value of the assets destroyed was approximately \$1.1 million combined with approximately \$510,000 of non-capitalized expense incurred in 2005. Accordingly, we have recorded a casualty loss of \$72,000 for the year ended December 31, 2005. No casualty losses were recorded for the year ended December 31, 2004.

These amounts are based upon estimates and are subject to change as we and our insurers (i) more fully evaluate the extent of physical damage, which may not be fully determinable until commencement of repairs, (ii) develop detailed restoration plans and (iii) evaluate the impact of local conditions in the building labor and supplies markets for restoration costs.

### *Borrowings from affiliate*

As of December 31, 2003, the Company had \$100.0 million in short-term borrowings from PSI. The note bore interest at 1.4% and was due on March 9, 2004. The Company repaid the note in full during the first quarter of 2004.

### *Stock-based compensation*

Prior to December 31, 2001, the Company elected to adopt the disclosure requirements of SFAS No. 123, but continued to account for stock-based compensation under APB 25. Effective January 1, 2002, the Company adopted the Fair Value Method of accounting for stock options. As required by the transition requirements of SFAS No. 123, amended by SFAS No. 148, the Company will recognize compensation expense in the income statement using the Fair Value Method only with respect to stock options issued after January 1, 2002, but continue to disclose the pro-forma impact of utilizing the Fair Value Method on stock options issued prior to January 1, 2002. See note 10.

### *Revenue and expense recognition*

Revenue is recognized in accordance with Staff Accounting Bulletin No. 101 of the Securities and Exchange Commission, Revenue Recognition in Financial Statements ("SAB 101"), as amended. SAB 101 requires that four basic criteria must be met before revenue can be recognized: persuasive evidence of an arrangement exists; the delivery has occurred or services rendered; the fee is fixed and determinable; and collectibility is reasonably assured. All leases are classified as operating leases. Rental income is recognized on a straight-line basis over the terms of the leases. Straight-line rent is recognized for all tenants with contractual increases in rent that are not included on the Company's credit watch list. Deferred rent receivables represent rental revenue recognized on a straight-line basis in excess of billed rents. Reimbursements from tenants for real estate taxes and other recoverable operating expenses are recognized as revenues in the period the applicable costs are incurred.

Costs incurred in connection with leasing (primarily tenant improvements and leasing commissions) are capitalized and amortized over the lease period.

### *Gains/Losses from sales of real estate*

The Company recognizes gains from sales of real estate at the time of sale using the full accrual method, provided that various criteria related to the terms of the transactions and any subsequent involvement by us with the properties sold are met. If the criteria are not met, the Company defers the gains and recognizes them when the criteria are met or using the installment or cost recovery methods as appropriate under the circumstances.

### *General and administrative expense*

General and administrative expense includes executive compensation, office expense, professional fees, state income taxes, cost of acquisition personnel and other such administrative items.

### *Related party transactions*

Pursuant to a cost sharing and administrative services agreement, the Company shares costs with PSI and affiliated entities for certain administrative services. These costs totaled \$335,000, \$327,000 and \$335,000 in 2005, 2004 and 2003, respectively, and are allocated among PSI and its affiliates in accordance with a methodology intended to fairly allocate those costs. In addition, the Company provides property management services for properties owned by PSI and its affiliates for a fee of 5% of the gross revenues of such properties in addition to reimbursement of direct costs. These management fee revenues recognized under management contracts with affiliated parties totaled approximately \$579,000, \$562,000 and \$581,000 in 2005, 2004 and 2003, respectively. Through the first quarter of 2004, the Company combined its insurance purchasing power with PSI through a captive insurance company controlled by PSI, STOR-Re Mutual Insurance Corporation (“Stor-Re”). Stor-Re provided limited property and liability insurance to the Company. The Company and PSI also utilized unaffiliated insurance carriers to provide property and liability insurance in excess of Stor-Re’s limitations.

### *Income taxes*

The Company qualified and intends to continue to qualify as a REIT, as defined in Section 856 of the Internal Revenue Code. As a REIT, the Company is not subject to federal income tax to the extent that it distributes its taxable income to its shareholders. A REIT must distribute at least 90% of its taxable income each year. In addition, REITs are subject to a number of organizational and operating requirements. If the Company fails to qualify as a REIT in any taxable year, the Company will be subject to federal income tax (including any applicable alternative minimum tax) based on its taxable income using corporate income tax rates. Even if the Company qualifies for taxation as a REIT, the Company may be subject to certain state and local taxes on its income and property and to federal income and excise taxes on its undistributed taxable income. The Company believes it met all organization and operating requirements to maintain its REIT status during 2005, 2004 and 2003 and intends to continue to meet such requirements. Accordingly, no provision for income taxes has been made in the accompanying financial statements.

### *Accounting for preferred equity issuance costs*

In accordance with Emerging Issues Task Force (“EITF”) Topic D-42, the Company records its issuance costs as a reduction to Paid-in Capital on its balance sheet at the time the preferred securities are issued and reflects the carrying value of the preferred stock at the stated value. The Company reduces the carrying value of preferred stock by the issuance costs at the time it notifies the holders of preferred stock or units of its intent to redeem such shares or units.

### *Net income per common share*

Per share amounts are computed using the weighted average common shares outstanding. “Diluted” weighted average common shares outstanding include the dilutive effect of stock options and restricted stock units under the

treasury stock method. “Basic” weighted average common shares outstanding excludes such effect. Earnings per share has been calculated as follows (*in thousands, except per share data*):

	<u>For the Years Ended December 31,</u>		
	<u>2005</u>	<u>2004</u>	<u>2003</u>
Net income allocable to common shareholders . . . . .	<u>\$ 32,283</u>	<u>\$ 29,123</u>	<u>\$ 33,312</u>
Weighted average common shares outstanding:			
Basic weighted average common shares			
outstanding . . . . .	21,826	21,767	21,412
Net effect of dilutive stock options and restricted			
stock units — based on treasury stock method			
using average market price . . . . .	<u>192</u>	<u>193</u>	<u>153</u>
Diluted weighted average common shares			
outstanding . . . . .	<u>22,018</u>	<u>21,960</u>	<u>21,565</u>
Net income per common share — Basic . . . . .	<u>\$ 1.48</u>	<u>\$ 1.34</u>	<u>\$ 1.56</u>
Net income per common share — Diluted . . . . .	<u>\$ 1.47</u>	<u>\$ 1.33</u>	<u>\$ 1.54</u>

Options to purchase approximately 80,000, 80,000 and 68,000 shares for the years ended December 31 2005, 2004, and 2003, respectively were not included in the computation of diluted net income per share because such options were considered anti-dilutive.

*Segment Reporting*

The Company views its operations as one segment.

*Reclassifications*

Certain reclassifications have been made to the consolidated financial statements for 2004 and 2003 in order to conform to the 2005 presentation.

### 3. Real estate facilities

The activity in real estate facilities for the years ended December 31, 2005, 2004, and 2003 is as follows (*in thousands*):

	<u>Land</u>	<u>Buildings</u>	<u>Accumulated Depreciation</u>	<u>Total</u>
Balances at December 31, 2002 . . .	\$ 260,906	\$ 872,997	\$ (155,076)	\$ 978,827

The unaudited basis of real estate facilities for federal income tax purposes was approximately \$1.2 billion at December 31, 2005. The Company had approximately 4.2% of its properties, in terms of net book value, encumbered by mortgage debt at December 31, 2005.

Subsequent to December 31, 2005, the Company acquired WesTech Business Park, a 366,000 square foot office and flex park in Silver Spring, Maryland, for approximately \$69.6 million. The park consists of nine single story buildings.

On October 25, 2005, the Company acquired a 233,000 square foot multi-tenant flex space in San Diego, California for \$35.1 million. In connection with the acquisition, the Company assumed a \$15.0 million mortgage which bears interest at a fixed rate of 5.73%.

On May 27, 2004, the Company acquired Fairfax Executive Park, a 165,000 square foot office complex in Fairfax, Virginia, for \$24.1 million.

During the year ended December 31, 2003, the Company completed the following acquisitions: Westwood Business Park, containing 113,000 square feet of flex space in the Farmer's Branch submarket of Dallas, Texas for \$7.8 million; Orange County Business Center containing five low-rise office buildings and 437,000 square feet for approximately \$45.1 million; four buildings in the Metro/Black Canyon submarket of Phoenix, Arizona, totaling 110,000 square feet of flex space for approximately \$9.6 million; two office buildings in the Central Orange County submarket of Orange, California, totaling 107,000 square feet for approximately \$14.9 million; and Miami International Commerce Center, consisting of 3.3 million square feet of industrial and flex space and 56,000 square feet of retail space for approximately \$205.0 million. The values assigned to the assets acquired were determined

using traditional real estate valuation methodologies. In accordance with SFAS No. 141, the Company assesses the market value of in-place leases based upon their best estimate of current market rents.

During the year ended December 31, 2003, the Company incurred approximately \$838,000 in development costs. The Company did not incur any development costs in 2005 or 2004. There were no new development properties in 2003, 2004, or 2005 although the Company continued to incur first generation leasing costs on three of its developments in 2003.

For acquisitions that were consummated subsequent to June 30, 2001, the effective date of Statement of Financial Accounting Standards No. 141, *Business Combinations*, the fair value of the real estate acquired is allocated to the acquired tangible assets, consisting of land, building and tenant improvements, and identified intangible assets and liabilities, consisting of the value of above-market and below-market leases, other value of in-place leases and value of tenant relationships, based in each case on their fair values.

The fair value of the tangible assets of an acquired property (which includes land, building and tenant improvements) is determined by valuing the property as if it were vacant, and the "as-if-vacant" value is then allocated to land, building and tenant improvements based on management's determination of the relative fair values of these assets. Management determines the as-if-vacant fair value of a property using methods similar to those used by independent appraisers. Factors considered by management in performing these analyses include an estimate of carrying costs during the expected lease-up periods considering current market conditions and costs to execute similar leases. In estimating carrying costs, management includes real estate taxes, insurance and other operating expenses and estimates of lost rental revenue during the expected lease-up periods based on current market demand. Management also estimates costs to execute similar leases including tenant improvements and leasing commissions.

In allocating the fair value of the identified net intangible assets of an acquired property, above-market and below-market in-place lease values are recorded based on the present value (using an interest rate which reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to the in-place leases and (ii) management's estimate of fair market lease rates for the corresponding in-place leases, measured over a period equal to the remaining non-cancelable term of the lease. The capitalized above and below-market lease values (included in building and equipment in the accompanying consolidated balance sheet) are amortized, net, to rental income over the remaining non-cancelable terms of the respective leases.

The aggregate value of other acquired intangible assets, consisting of in-place leases and tenant relationships, is measured by the excess of (i) the purchase price paid for a property after adjusting existing in-place leases to market rental rates over (ii) the estimated fair value of the property as if vacant, determined as set forth above. This aggregate value is allocated between in-place lease values and tenant relationships based on management's evaluation of the specific characteristics of each tenant's lease; however, the value of tenant relationships has not been separated from in-place lease value for the additional interests in real estate entities acquired, because such value and its consequence to amortization expense is immaterial for these particular acquisitions. Should future acquisitions of properties result in allocating material amounts to the value of tenant relationships, an amount would be separately allocated and amortized over the estimated life of the relationship. The value of in-place leases exclusive of the value of above-market and below-market in-place leases is amortized to expense over the remaining non-cancelable periods of the respective leases. If a lease were to be terminated prior to its stated expiration, all unamortized amounts relating to that lease would be written off.

On January 31, 2005, the Company closed on the sale of 8.2 acres of land within the Cornell Oaks project in Beaverton, Oregon. The sales price for the land was \$3.6 million, resulting in a gain of \$1.8 million.

On August 8, 2005, the Company closed on the sale of a 7,100 square foot unit at Miami International Commerce Center ("MICC") for \$750,000, resulting in a gain of \$137,000. On February 15, 2005, the Company sold a 56,000 square foot retail center located at MICC. The sales price was approximately \$12.2 million, resulting in a gain of \$967,000. In addition, on January 20, 2005, the Company closed on the sale of a 7,100 square foot unit at MICC for \$740,000, resulting in a gain of \$142,000.

On September 30, 2005, the Company completed the sale of Woodside Corporate Park located in Beaverton, Oregon. The park consists of 13 buildings comprising approximately 574,000 square feet and a 3.3 acre parcel of land. Net proceeds from the sale, after transaction costs, were approximately \$64.5 million. In connection with the sale, the Company recognized a gain of \$12.5 million.

During the three months ended December 31, 2005, the Company sold four units at MICC aggregating 30,200 square feet and a 13,000 square foot parcel of land with a combined gross sale price of \$4.3 million. In connection with the sales, the Company recognized gains of \$1.6 million.

As of December 31, 2005, the Company had five separate units, aggregating 43,000 square feet, at MICC that it anticipates selling and has therefore classified such units as assets held for disposition.

The Company realized a gain of approximately \$1.0 million from the November 2004 sale of Largo 95 in Largo, Maryland. The gain was previously deferred due to the Company's obligation to complete certain leasing related items satisfied during the second quarter of 2005.

In April, 2004, the Company sold a 43,000 square foot flex facility in Austin, Texas, for net proceeds of approximately \$1.1 million. During the third quarter of 2004, the Company sold a 30,500 square foot building in Beaverton, Oregon for gross proceeds of \$3.1 million and closed on a sale of a 10,000 square foot unit in Miami, Florida with gross proceeds of \$1.1 million. Additionally, during the third quarter of 2004, the Company concluded that it would likely sell as many as 12 separate units, aggregating 94,000 square feet as well as a 56,000 square foot retail center of its MICC property and classified such properties as held for disposition. In November 2004, one of the 12 units was sold for net proceeds of approximately \$720,000. During the fourth quarter, the Company also sold two flex parks totaling approximately 400,000 square feet in Maryland for gross proceeds of approximately \$44.2 million.

During 2003, the Company sold a property in Lakewood, California for net proceeds of approximately \$6.3 million. The Company also completed the sale of two Nashville properties in June, 2003 with net proceeds of \$5.1 million. A gain on the Lakewood and Nashville properties of \$3.5 million was recognized in the second quarter of 2003. During the third quarter of 2003, the Company sold a one-acre parcel of land located in Beaverton, Oregon with net proceeds of approximately \$733,000. The transaction was completed in July, 2003 at a gain of approximately \$14,000. During the fourth quarter of 2003, the Company sold a building located in Beaverton, Oregon with net proceeds of approximately \$2.4 million. The transaction was completed in December, 2003, at a loss of approximately \$601,000.

The following summarizes the condensed results of operations of the properties held for disposition at December 31, 2005 and properties sold during 2005, 2004 and 2003 (*in thousands*):

	<u>For the Years Ended December 31,</u>		
	<u>2005</u>	<u>2004</u>	<u>2003</u>
Rental income . . . . .	\$ 5,764	\$ 13,408	\$ 13,558
Cost of operations . . . . .	(1,722)	(3,979)	(3,811)
Depreciation . . . . .	(1,135)	(3,707)	(2,775)
Debt extinguishing costs . . . . .	—	(231)	—
Income from discontinued operations . . . . .	<u>\$ 2,907</u>	<u>\$ 5,491</u>	<u>\$ 6,972</u>

In addition to minimum rental payments, tenants reimburse the Company for their pro rata share of specified operating expenses, which amounted to \$755,000, \$1.6 million, and \$1.6 million, for the years ended December 31, 2005, 2004 and 2003, respectively. These amounts are included as rental income and cost of operations in the table presented above for those assets sold or classified as held for disposition.

#### 4. Leasing activity

The Company leases space in its real estate facilities to tenants primarily under non-cancelable leases generally ranging from one to ten years. Future minimum rental revenues excluding recovery of expenses as of December 31, 2005 under these leases are as follows (*in thousands*):

2006 .....	\$ 187,677
2007 .....	150,390
2008 .....	109,538
2009 .....	73,311
2010 .....	50,806
Thereafter .....	<u>80,333</u>
	<u>\$ 652,055</u>

In addition to minimum rental payments, tenants reimburse the Company for their pro rata share of specified operating expenses, which amounted to \$25.5 million, \$25.2 million, and \$24.5 million, for the years ended December 31, 2005, 2004 and 2003, respectively. These amounts are included as rental income and cost of operations in the accompanying consolidated statements of income.

Leases for approximately 8% of the leased square footage are subject to termination options which include leases for approximately 3% of the leased square footage having termination options exercisable through December 31, 2006 (unaudited). In general, these leases provide for termination payments should the termination options be exercised. The above table is prepared assuming such options are not exercised.

#### 5. Bank Loans

In August of 2005, the Company modified the term of its line of credit (the "Credit Facility") with Wells Fargo Bank. The Credit Facility has a borrowing limit of \$100.0 million and matures on August 1, 2008. Interest on outstanding borrowings is payable monthly. At the option of the Company, the rate of interest charged is equal to (i) the prime rate or (ii) a rate ranging from the London Interbank Offered Rate ("LIBOR") plus 0.50% to LIBOR plus 1.20% depending on the Company's credit ratings and coverage ratios, as defined (currently LIBOR plus 0.65%). In addition, the Company is required to pay an annual commitment fee ranging from 0.15% to 0.30% of the borrowing limit (currently 0.20%). In connection with the modification of the Credit Facility, the Company paid a fee of \$450,000, which will be amortized over the life of the Credit Facility. The Company had no balance outstanding on its Credit Facility at December 31, 2005 and 2004.

The Credit Facility requires the Company to meet certain covenants including (i) maintain a balance sheet leverage ratio (as defined) of less than 0.45 to 1.00, (ii) maintain interest and fixed charge coverage ratios (as defined) of not less than 2.25 to 1.00 and 1.75 to 1.00, respectively, (iii) maintain a minimum tangible net worth (as defined) and (iv) limit distributions to 95% of funds from operations (as defined) for any four consecutive quarters. In addition, the Company is limited in its ability to incur additional borrowings (the Company is required to maintain unencumbered assets with an aggregate book value equal to or greater than two times the Company's unsecured recourse debt; the Company did not have any unsecured recourse debt at December 31, 2005) or sell assets. The Company was in compliance with the covenants of the Credit Facility at December 31, 2005.

In February 2002, the Company entered into a seven year \$50.0 million unsecured term note agreement with Fleet National Bank. The note bore interest at LIBOR plus 1.45% per annum and was due on February 20, 2009. The Company paid a one-time facility fee of 0.35% or \$175,000 for the loan. The Company used the proceeds from the loan to reduce the amount drawn on the Credit Facility. In July 2002, the Company entered into an interest rate swap transaction which had the effect of fixing the rate on the term loan through July 2004 at 4.46% per annum. In February 2004, the Company repaid, in full, the \$50.0 million outstanding on the term loan.

## 6. Mortgage notes payable

Mortgage notes consist of the following (*in thousands*):

	<u>December 31, 2005</u>	<u>December 31, 2004</u>
8.190% mortgage note, secured by one commercial property with an approximate carrying amount of \$10.6 million, principal and interest payable monthly, due March 2007	\$ 5,302	\$ 5,578
7.290% mortgage note, secured by one commercial property with an approximate carrying amount of \$6.5 million, principal and interest payable monthly, due February 2009 . . . . .	5,645	5,789
5.730% mortgage note, secured by one commercial property with an approximate carrying amount of \$34.8 million, principal and interest payable monthly, due March 2013	<u>14,946</u>	<u>—</u>
	<u>\$ 25,893</u>	<u>\$ 11,367</u>

The mortgage notes have a weighted average interest rate of 6.57% and an average maturity of 5.1 years. At December 31, 2005, approximate principal maturities of mortgage notes payable are as follows (*in thousands*):

2006 . . . . .	\$ 658
2007 . . . . .	5,402
2008 . . . . .	423
2009 . . . . .	5,405
2010 . . . . .	277
Thereafter . . . . .	<u>13,728</u>
	<u>\$ 25,893</u>

## 7. Minority interests

### *Common partnership units*

The Company presents the accounts of PSB and the Operating Partnership on a consolidated basis. Ownership interests in the Operating Partnership that can be redeemed for common stock, other than PSB's interest, are classified as minority interest — common units in the consolidated financial statements. Minority interest in income common units consists of the minority interests' share of the consolidated operating results after allocation to preferred units and shares.

Beginning one year from the date of admission as a limited partner (common units) and subject to certain limitations described below, each limited partner other than PSB has the right to require the redemption of its partnership interest.

A limited partner (common units) that exercises its redemption right will receive cash from the Operating Partnership in an amount equal to the market value (as defined in the Operating Partnership Agreement) of the partnership interests redeemed. In lieu of the Operating Partnership redeeming the partner for cash, PSB, as general partner, has the right to elect to acquire the partnership interest directly from a limited partner exercising its redemption right, in exchange for cash in the amount specified above or by issuance of one share of PSB common stock for each unit of limited partnership interest redeemed.

A limited partner cannot exercise its redemption right if delivery of shares of PSB common stock would be prohibited under the applicable articles of incorporation, or if the general partner believes that there is a risk that delivery of shares of common stock would cause the general partner to no longer qualify as a REIT, would cause a violation of the applicable securities laws, or would result in the Operating Partnership no longer being treated as a partnership for federal income tax purposes.

At December 31, 2005, there were 7,305,355 common units owned by PSI, which are accounted for as minority interests. On a fully converted basis, assuming all 7,305,355 minority interest common units were converted into shares of common stock of PSB at December 31, 2005, the minority interest units would convert into approximately 25.3% of the common shares outstanding. At the end of each reporting period, the Company determines the amount of equity (book value of net assets) which is allocable to the minority interest based upon the ownership interest and an adjustment is made to the minority interest, with a corresponding adjustment to paid-in capital, to reflect the minority interests' equity in the Company.

#### *Preferred partnership units*

Through the Operating Partnership, the Company has the following preferred units outstanding as of December 31, 2005 and 2004 (*in thousands*):

Series	Issuance Date	Date Redeemed or Earliest Potential Redemption Date	Dividend Rate	December 31,			
				2005		2004	
				Units Outstanding	Amount	Units Outstanding	Amount
Series E	September, 2001	September, 2006	9.250%	2,120	\$ 53,000	2,120	\$ 53,000
Series G	October, 2002	October, 2007	7.950%	800	20,000	800	20,000
Series J	May & June, 2004	May, 2009	7.500%	1,710	42,750	1,710	42,750
Series N	December, 2005	December, 2010	7.125%	800	20,000	—	—
Series Y	July, 2000	July, 2005	8.875%	—	—	480	12,000
				<u>5,430</u>	<u>\$ 135,750</u>	<u>5,110</u>	<u>\$ 127,750</u>

On July 12, 2005 the Company redeemed 480,000 units of its 8.875% Series Y Cumulative Redeemable Preferred Operating Partnership Units for approximately \$12.0 million. In accordance with EITF D-42, the redemptions resulted in a reduction of net income allocable to common shareholders of approximately \$301,000 for the year ended December 31, 2005, and a corresponding increase in the allocation of income to minority interests equal to the excess of the redemption amount over the carrying amount of the redeemed securities.

During the fourth quarter of 2005, the Company completed a private placement of approximately \$20.0 million of preferred units through its operating partnership. The 7.125% Series N Cumulative Redeemable Preferred Units are non-callable for five years and have no mandatory redemption. The net proceeds from the placements were approximately \$19.5 million and will be used to fund future property acquisitions, preferred equity redemptions and for general corporate purposes.

The Operating Partnership has the right to redeem preferred units on or after the fifth anniversary of the applicable issuance date at the original capital contribution plus the cumulative priority return, as defined, to the redemption date to the extent not previously distributed. The preferred units are exchangeable for Cumulative Redeemable Preferred Stock of the respective series of PSB on or after the tenth anniversary of the date of issuance at the option of the Operating Partnership or a majority of the holders of the respective preferred units. The Cumulative Redeemable Preferred Stock will have the same distribution rate and par value as the corresponding preferred units and will otherwise have equivalent terms to the other series of preferred stock described in Note 9. As of December 31, 2005 and 2004, the Company had approximately \$3.7 million and \$3.5 million of deferred costs in connection with the issuance of preferred units, which the Company will report as additional distributions upon notice of redemption.

#### **8. Property management contracts**

The Operating Partnership manages industrial, office and retail facilities for PSI and affiliated entities. These facilities, all located in the United States, operate under the "Public Storage" or "PS Business Parks" names. In addition, the Operating Partnership previously managed properties for third party owners.

The property management contracts provide for compensation of a percentage of the gross revenues of the facilities managed. Under the supervision of the property owners, the Operating Partnership coordinates rental policies, rent collections, marketing activities, the purchase of equipment and supplies, maintenance activities, and the selection and engagement of vendors, suppliers and independent contractors. In addition, the Operating

Partnership assists and advises the property owners in establishing policies for the hire, discharge and supervision of employees for the operation of these facilities, including property managers and leasing, billing and maintenance personnel.

The property management contract with PSI is for a seven year term with the term being automatically extended one year on each anniversary. At any time, either party may notify the other that the contract is not to be extended, in which case the contract will expire on the first anniversary of its then scheduled expiration date. For PSI affiliate owned properties, PSI can cancel the property management contract upon 60 days notice while the Operating Partnership can cancel upon seven years notice. Management fee revenues under these contracts totaled \$579,000, \$562,000, and \$581,000 for the years ended December 31, 2005, 2004 and 2003 respectively. Management fee revenue from unaffiliated third parties and the joint venture were \$0, \$62,000, and \$161,000 for the years ended December 31, 2005, 2004 and 2003, respectively.

## 9. Shareholders' equity

### *Preferred stock*

As of December 31, 2005 and December 31, 2004, the Company had the following series of preferred stock outstanding (*in thousands*):

Series	Issuance Date	Earliest Potential Redemption Date	Dividend Rate	December 31, 2005		December 31, 2004	
				Shares Outstanding	Amount	Shares Outstanding	Amount
Series D	May, 2001	May, 2006	9.500%	2,634	\$ 65,850	2,634	\$ 65,850
Series F	January, 2002	January, 2007	8.750%	2,000	50,000	2,000	50,000
Series H	January & October, 2004	January, 2009	7.000%	8,200	205,000	8,200	205,000
Series I	April, 2004	April, 2009	6.875%	3,000	75,000	3,000	75,000
Series K	June, 2004	June, 2009	7.950%	2,300	57,500	2,300	57,500
Series L	August, 2004	August, 2009	7.600%	2,300	57,500	2,300	57,500
Series M	May, 2005	May, 2010	7.200%	3,300	82,500	—	—
				<u>23,734</u>	<u>\$ 593,350</u>	<u>20,434</u>	<u>\$ 510,850</u>

In May of 2005, the Company issued 3.3 million depositary shares each representing 1/1,000 of a share of the 7.200% Cumulative Preferred Stock, Series M, at \$25.00 per depositary share. The Company intends to use the proceeds from the offering to fund future property acquisitions, preferred equity redemptions and for general corporate purposes.

The Company paid approximately \$43.0 million, \$31.2 million and \$15.8 million in distributions to its preferred shareholders for the years ended December 31, 2005, 2004 and 2003, respectively.

Holders of the Company's preferred stock will not be entitled to vote on most matters, except under certain conditions. In the event of a cumulative arrearage equal to six quarterly dividends, the holders of the preferred stock will have the right to elect two additional members to serve on the Company's Board of Directors until all events of default have been cured. At December 31, 2005, there were no dividends in arrears.

Except under certain conditions relating to the Company's qualification as a REIT, the preferred stock is not redeemable prior to the previously noted redemption dates. On or after the respective redemption dates, the respective series of preferred stock will be redeemable, at the option of the Company, in whole or in part, at \$25 per depositary share, plus any accrued and unpaid dividends. As of December 31, 2005 and 2004, the Company had approximately \$20.1 million and \$17.3 million of deferred costs in connection with the issuance of preferred stock, which the Company will report as additional non-cash distributions upon notice of its intent to redeem such shares.

### *Common Stock*

The Company's Board of Directors has authorized the repurchase, from time to time, of up to 4.5 million shares of the Company's common stock on the open market or in privately negotiated transactions. During the year

ended December 31, 2005, the Company repurchased 361,400 shares of common stock at a cost of approximately \$16.6 million. No shares were repurchased in 2004. In 2003, the Company repurchased 261,200 shares of common stock and no common units in its operating partnership at an aggregate cost of approximately \$8.1 million. Since inception through December 31, 2005, the Company has repurchased an aggregate of 3.0 million shares of common stock at an aggregate cost of approximately \$86.5 million (average cost of \$29.00 per share).

The Company paid \$25.3 million (\$1.16 per common share), \$25.3 million (\$1.16 per common share) and \$24.9 million (\$1.16 per common share) in distributions to its common shareholders for the years ended December 31, 2005, 2004 and 2003, respectively. The portion of the distributions classified as ordinary income was 95.5%, 91.3% and 94.4% for the years ended December 31, 2005, 2004 and 2003, respectively. The portion of the distributions classified as long-term capital gain income was 4.5%, 8.7% and 5.6% for the years ended December 31, 2005, 2004 and 2003, respectively. Percentages in the two preceding sentences are unaudited. Pursuant to restrictions imposed by the Credit Facility, distributions may not exceed 95% of funds from operations, as defined.

On January 10, 2003, the Company issued 2,000 shares of common stock to Joseph D. Russell, Jr., President and Chief Executive Officer of the Company, as a bonus under his employment agreement for services rendered during 2002. The shares were issued in reliance on Section 4(2) under the Securities Act of 1933. Mr. Russell represented that he was acquiring the shares for investment and not for resale.

#### *Equity stock*

In addition to common and preferred stock, the Company is authorized to issue 100.0 million shares of Equity Stock. The Articles of Incorporation provide that the Equity Stock may be issued from time to time in one or more series and give the Board of Directors broad authority to fix the dividend and distribution rights, conversion and voting rights, redemption provisions and liquidation rights of each series of Equity Stock.

#### **10. Stock-based compensation**

PSB has a 1997 Stock Option and Incentive Plan (the "1997 Plan") covering 1.5 million shares of PSB's common stock. Also, in March 2003, the Board of Directors approved the 2003 Stock Option and Incentive Plan (the "2003 Plan") covering 1.5 million shares of PSB's common stock. Shareholders approved adoption of the 2003 Plan in May, 2003. Generally, options under the 1997 Plan vest over a three-year period from the date of grant at the rate of one third per year and expire ten years after the date of grant. Options under the 2003 Plan vest over a five-year period from the date of grant at the rate of one fifth per year and expire ten years after the date of grant. Under the 1997 Plan and 2003 Plan, PSB has granted non-qualified options to certain directors, officers and key employees to purchase shares of PSB's common stock at a price no less than the fair market value of the common stock at the date of grant.

At December 31, 2005, there were a combined total of 1.5 million options and restricted stock units authorized to grant. Information with respect to the 1997 Plan and 2003 Plan is as follows:

	<u>Number of Options</u>	<u>Weighted Average Exercise Price</u>
Outstanding at December 31, 2002 .....	1,038,756	\$ 27.36
Granted .....	167,000	\$ 34.77

Through December 31, 2001, the Company elected to adopt the disclosure requirements of SFAS No. 123, but continued to account for stock-based compensation under APB 25. Effective January 1, 2002, the Company adopted the Fair Value Method of accounting for stock options. As required by the transition requirements of SFAS No. 123 as amended by SFAS No. 148, the Company has recognized compensation expense in the income statement using the Fair Value Method only with respect to stock options issued after January 1, 2002, but continue to disclose the pro-forma impact of utilizing the Fair Value Method on stock options issued prior to January 1, 2002. As a result, included in the Company's income statement for the years ended December 31, 2005, 2004 and 2003 are approximately \$406,000, \$241,000 and \$322,000, respectively, in stock option compensation expense related to options granted after January 1, 2002.

The weighted average fair value of the options granted in 2005, 2004 and 2003 were \$6.98, \$6.80 and \$4.57, respectively. Had compensation cost for the 1997 Plan for options granted prior to December 31, 2001 been determined based on the fair value at the grant date for awards under the 1997 Plan consistent with the method

prescribed by SFAS No. 123, the Company's pro forma net income available to common shareholders would have been:

	<u>For the Years Ended December 31,</u>		
	<u>2005</u>	<u>2004</u>	<u>2003</u>
(In thousands, except per share data)			
Net income allocable to common shareholders, as reported .....	\$ 32,283	\$ 29,123	\$ 33,312
Deduct: Total stock-based employee compensation expense determined under fair value based method of all awards.....	<u>—</u>	<u>(215)</u>	<u>(628)</u>
Net income allocable to common shareholders, as adjusted .....	<u>\$ 32,283</u>	<u>\$ 28,908</u>	<u>\$ 32,684</u>
Earnings per share:			
Basic as reported .....	<u>\$ 1.48</u>	<u>\$ 1.34</u>	<u>\$ 1.56</u>
Basic as adjusted .....	<u>\$ 1.48</u>	<u>\$ 1.33</u>	<u>\$ 1.53</u>
Diluted as reported.....	<u>\$ 1.47</u>	<u>\$ 1.33</u>	<u>\$ 1.54</u>
Diluted as adjusted .....	<u>\$ 1.47</u>	<u>\$ 1.32</u>	<u>\$ 1.52</u>

In determining the fair value of each option grant, the Company has used on the date of grant, the Black-Scholes option-pricing model with the following weighted average assumptions used for grants in 2005, 2004 and 2003, respectively; dividend rate of 2.6%, 2.6% and 3.6%; expected volatility of 17.6%, 17.5% and 16.7%, expected lives of five years; and risk-free interest rates of 4.2%, 3.6% and 3.6%. The pro forma effect on net income allocable to common shareholders during 2005, 2004 and 2003 may not be representative of the pro forma effect on net income allocable to common shareholders in future years.

The Company has granted 233,700 restricted stock units under the 1997 Plan and 2003 Plan since inception, of which 128,000 restricted stock units were outstanding at December 31, 2005. The restricted stock units were granted at a zero exercise price. The fair market value of the restricted stock units at the date of grant ranged from \$24.02 to \$45.51 per restricted stock unit. The restricted stock units granted prior to August, 2002 (88,000 units) are subject to a five-year vesting schedule, at 30% in year three, 30% in year four and 40% in year five. Restricted stock units granted subsequent to August, 2002 (145,700 units) are subject to a six year vesting schedule, none in year one and 20% for each of the next five years. The Company granted 38,200 restricted stock units at a weighted average fair value of \$41.43 during the year ended December 31, 2005. Net compensation expense related to restricted stock of \$626,000, \$673,000 and \$670,000 was recognized during the years ended December 31, 2005, 2004 and 2003, respectively. During 2005, 19,250 restricted stock units vested; of this amount, 11,962 shares were issued, net of shares applied to payroll taxes. During 2004, the Company redeemed 7,621 of the 12,050 shares of restricted stock that vested during 2004 for approximately \$321,000 and issued 4,429 shares. During 2003, the Company redeemed 5,550 shares of restricted stock that vested during 2003 for approximately \$198,000.

In May of 2004, the shareholders of the Company approved the issuance of up to 70,000 shares of common stock under the Retirement Plan for Non-Employee Directors (the "Director Plan"). Under the Director Plan the Company grants 1,000 shares of common stock for each year served as a director up to a maximum of 5,000 shares issued upon retirement. The Company recognizes compensation expense with regards to grants to be issued in the future under the Director Plan. As a result, included in the Company's income statement for the year ended December 31, 2005, is approximately \$28,000 in compensation expense.

## 11. Recent accounting pronouncements

On December 16, 2004, the FASB issued SFAS No. 123 (revised 2004), "Share-Based Payment," which is a revision of FASB Statement No. 123, "Accounting for Stock-Based Compensation." SFAS No. 123(R) supersedes APB Opinion No. 25, "Accounting for Stock Issued to Employees," and amends SFAS No. 95, "Statement of Cash Flows." Generally, the approach in Statement 123(R) is similar to the approach described in Statement 123. However, Statement 123(R) requires all share-based payments to employees, including grants of

employee stock options, to be recognized in the income statement based on their fair values. Pro forma disclosure is no longer an alternative. Statement 123(R) must be adopted no later than January 1, 2006. Early adoption will be permitted in periods in which financial statements have not yet been issued. The Company expects to adopt Statement 123(R) on January 1, 2006. Due to the Company adopting the Fair Value Method of accounting for stock options, the adoption of this standard will not have a material impact on the results of operations or the financial position of the Company.

(1) Discontinued operations are excluded.

## 13. Commitments and contingencies

Substantially all of the Company's properties have been subjected to Phase I environmental reviews. Such reviews have not revealed, nor is management aware of, any probable or reasonably possible environmental costs that management believes would have a material adverse effect on the Company's business, assets or results of operations, nor is the Company aware of any potentially material environmental liability.

The Company currently is neither subject to any other material litigation nor, to management's knowledge, is any material litigation currently threatened against the Company other than routine litigation and administrative proceedings arising in the ordinary course of business.

## 14. 401(K) Plan

The Company has a 401(K) savings plan (the "Plan") which all eligible employees may participate. The Plan provides for the Company to make matching contributions to all eligible employees up to 4% of their annual salary dependent on the employee's level of participation. For the years ended December 31, 2005, 2004 and 2003, approximately \$203,000, \$219,000 and \$209,000, respectively, was charged as expense related to this plan.

**CERTIFICATION PURSUANT TO  
18 U.S.C. SECTION 1350,  
AS ADOPTED PURSUANT TO  
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Joseph D. Russell, Jr. certify that:

1. I have reviewed this annual report on Form 10-K of PS Business Parks, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO  
18 U.S.C. SECTION 1350,  
AS ADOPTED PURSUANT TO  
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Edward A. Stokx certify that:

1. I have reviewed this annual report on Form 10-K of PS Business Parks, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**Certification of CEO and CFO Pursuant to  
18 U.S.C. Section 1350,  
as Adopted Pursuant to  
Section 906 of the Sarbanes-Oxley Act of 2002**

In connection with the Annual Report on Form 10-K of PS Business Parks, Inc. (the "Company") for the period ending December 31, 2005 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), Joseph D. Russell Jr., as Chief Executive Officer of the Company, and Edward A. Stokx, as Chief Financial Officer of the Company, each hereby certifies, pursuant to 18 U.S.C. § 1350, as adopted pursuant to § 906 of the Sarbanes-Oxley Act of 2002, that:

(1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and

(2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
